Analysis of Powder Cocaine Trafficking Offenses

STATISTICAL OVERVIEW: FISCAL YEAR 2011

In fiscal year 2011, federal courts sentenced 5,882 powder cocaine trafficking offenders. Powder cocaine was the primary drug type involved in the drug trafficking crime in 24.0 percent of drug trafficking offenses sentenced in fiscal year 2011. Powder cocaine trafficking offenses were distributed unevenly across the nation's circuit and district courts and constituted varying proportions of the circuit and district drug trafficking caseloads. Almost 65 percent of powder cocaine trafficking offenders (64.8%, n=3,812) were sentenced in five circuits. Judges within the Fifth Circuit sentenced the greatest number of powder cocaine trafficking offenders with 1,144 offenders sentenced in fiscal year 2011 (19.4% of powder cocaine trafficking offenders nationwide), followed by the Eleventh Circuit with 781 offenders (13.3% of powder cocaine trafficking offenders nationwide), the Ninth Circuit with 647 offenders (11.0% of powder cocaine trafficking offenders nationwide), the First Circuit with 639 offenders (10.9% of powder cocaine trafficking offenders nationwide), and the Fourth Circuit with 601 offenders (10.2% of powder cocaine trafficking offenders nationwide).⁶² In addition, the proportion of a circuit's drug trafficking caseload comprised of powder cocaine trafficking offenses varied. For example, in the Eleventh and District of Columbia Circuits, powder cocaine trafficking offenses were over 38 percent of the circuits' drug trafficking caseload, while in the Ninth Circuit, powder cocaine trafficking offenses were only 12.5 percent of the circuit's drug trafficking caseload. As depicted in the table below, the proportion of a circuit's drug trafficking caseload comprised of powder cocaine trafficking offenses varied from a low of 11.6 percent in the Eighth Circuit to a high of 56.6 percent in the First Circuit.

Proportion of Caseload by Circuit Powder Cocaine Trafficking Offenses Fiscal Year 2011

	Number of	Percent of		
	Powder Cocaine	Total Drug		
Circuit	Offenses	Caseload		
TOTAL	5,882	24.0		
Eighth Circuit	175	11.6		
Ninth Circuit	647	12.5		
Tenth Circuit	205	13.8		
Sixth Circuit	410	21.1		
Fifth Circuit	1,144	23.1		
Seventh Circuit	312	26.4		
Fourth Circuit	601	27.0		
Second Circuit	582	32.6		
Third Circuit	329	34.5		
Eleventh Circuit	781	38.6		
D.C. Circuit	57	42.9		
First Circuit	639	56.6		

_

⁶² See "National Distribution of Primary Drug Type by Circuit and District, Powder Cocaine, FY 2011" Appendix Table. By way of comparison, 63.3 percent of all drug trafficking offenses in fiscal year 2011 were sentenced in district courts in those five circuits, with over 40 percent (41.3%) sentenced in the Fifth and the Ninth Circuits alone. See "National Distribution of Selected Offenses by Circuit and District, Drug Trafficking Offenses, FY 2011" Appendix Table.

PART C: DRUG TRAFFICKING OFFENSES

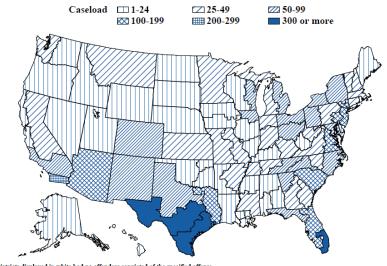

POWDER COCAINE

At the district level, the number of powder cocaine trafficking offenders sentenced in each district ranged from no powder cocaine trafficking offenders (Guam and the Northern Mariana Islands) to 536 offenders (Puerto Rico). Judges in five districts sentenced more than 200 powder cocaine trafficking offenders, with the 536 powder cocaine trafficking offenders in Puerto Rico representing 9.1 percent of all powder cocaine trafficking offenders nationwide. The four other districts sentencing more than 200 powder cocaine trafficking offenders were: Western Texas with 445 offenders (7.6% of powder cocaine trafficking offenders nationwide); Southern Texas with 412 offenders (7.0% of powder cocaine trafficking offenders nationwide); Southern Florida with 354 offenders (6.0% of powder cocaine trafficking offenders, nationwide); and Southern California with 246 offenders (4.2% of powder cocaine trafficking offenders nationwide). These five districts alone accounted for 33.9 percent (n=1,993) of the 5,882 powder cocaine trafficking offenders sentenced nationwide in fiscal year 2011.⁶³ Judges in more than half of the 94 districts (n=53) sentenced fewer than 40 powder cocaine trafficking offenders.

Similar to the caseload percentages at the circuit level, powder cocaine trafficking offenses comprised varying percentages of the districts' drug trafficking dockets. Excluding those districts reporting no powder cocaine trafficking offenses, the percentages of the districts' drug trafficking caseload comprised of powder cocaine trafficking offenses ranged from a low of 1.9 percent (Hawaii) to a high of 76.7 percent (Puerto Rico). In seven districts, powder cocaine trafficking offenders constituted more than 40 percent of drug trafficking offenders sentenced in those districts: Puerto Rico (76.7% of drug trafficking offenders in the district, n=536); Southern Florida (55.3% of drug trafficking offenders in the district, n=354); Northern Florida (50.4%, n=58); New Jersey (48.4% of drug trafficking offenders in the district, n=108); Delaware (44.4% of drug trafficking offenders in the district, n=12); District of Columbia (42.9% of drug trafficking offenders in

the district, n=57); and Middle Tennessee (42.7% of drug trafficking offenders in the district, n=35). In contrast, for those districts in which powder cocaine trafficking offenders were sentenced in fiscal year 2011, such offenders were less than five percent of the drug trafficking offenders in six districts. Those six districts were: Hawaii (1.9% of drug trafficking offenders in the district, n=2); Utah (2.5% of drug trafficking offenders in the district, n=4); Nebraska (2.7% of drug trafficking offenders in the district, n=6); Northern Iowa (3.3% of drug trafficking offenders in the district, n=6); Oregon (3.9% of drug trafficking offenders in the district, n=6); and Eastern Oklahoma (4.8% of drug trafficking offenders in the district, n=1).⁶⁴

Note: Districts displayed in white had no offenders convicted of the specified offens SOURCE: U.S. Sentencing Commission, 2011 Booker Report Datafiles.

⁶³ See "National Distribution of Primary Drug Type by Circuit and District, Powder Cocaine, FY 2011" Appendix Table. By way of comparison, 26.0 percent of drug trafficking offenses in fiscal year 2011 were sentenced in those five districts. See "National Distribution of Selected Offenses by Circuit and District, Drug Trafficking Offenses, FY 2011" Appendix Table.

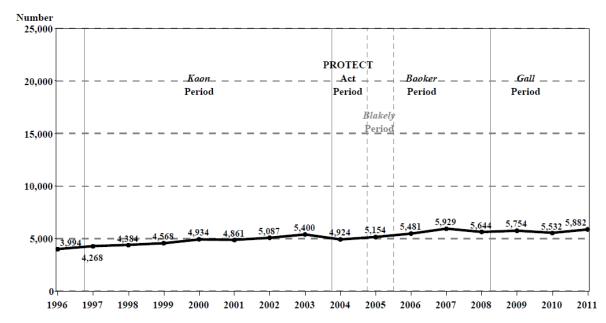

⁶⁴ See "Proportion of the Drug Trafficking Caseload in Each Circuit and District by Primary Drug Type, Powder Cocaine, FY 2011" Appendix Table.

NATIONAL TREND ANALYSIS

This section addresses federal sentencing trends for powder cocaine trafficking offenses over time. Much of the analysis uses time periods that are based on major changes in the legal framework governing federal sentencing rather than time periods divided by fiscal or calendar year. These four periods, the *Koon*, PROTECT Act, *Booker*, and *Gall* periods, and their significance, are discussed more fully in Part A.

The number of powder cocaine trafficking offenders sentenced nationwide has generally increased over time, peaking in fiscal year 2007. The percentage of powder cocaine trafficking offenses relative to the entire drug trafficking caseload has remained stable across the four periods. During the *Koon* period, 23.2 percent of drug trafficking offenses were powder cocaine trafficking offenses. This percentage was 22.8 percent in the PROTECT Act period, 23.5 percent in the *Booker* period, and 24.0 percent in the *Gall* period.

Number of Offenders by Fiscal Year Powder Cocaine Trafficking Offenses Fiscal Years 1996-2011

NATIONAL TREND ANALYSIS

OFFENDER AND OFFENSE CHARACTERISTICS

The majority of powder cocaine trafficking offenders have been United States citizens. The percentage of male offenders ha increased over the periods. Hispanic offenders have comprised the largest group of powder cocaine trafficking offenders in each of the four periods. Black offenders have been the second largest group of such offenders.

During all four periods, the majority of powder cocaine trafficking offenders have been in Criminal History Category I.

NATIONAL TREND ANALYSIS

OFFENDER AND OFFENSE CHARACTERISTICS

The average guideline minimum can be viewed as a proxy for the seriousness of the offense, as measured by the nature of the offenses, the criminal history of the offenders, and the applicable mandatory minimum penalties. For powder cocaine trafficking offenses, the average guideline minimum has increased over the four periods, suggesting that such offenses have become more serious over time. The average sentence length has also increased through the *Booker* period, but has decreased in the *Gall* period. Changes in sentence length are influenced by various factors including the guideline range, departures, and variances.

The table includes the percentage of powder cocaine trafficking offenders who were granted safety valve relief from the mandatory minimum penalty, pursuant to 18 U.S.C. § 3553(f) and USSG §5C1.2 , in each period.

The table includes the percentage of powder cocaine trafficking offenses that involved a weapon, because the offender was convicted under 18 U.S.C. § 924(c) (Firearms Penalties) or because the offender received the weapon enhancement at §2D1.1(b)(1). An offender who possessed a firearm or other dangerous weapon (or induced another participant to do so) in connection with the offense is ineligible for safety valve relief.

Rates of within range sentences decreased after the PROTECT Act. Government sponsored below range sentence rates have remained stable over the periods, whereas rates of non-government sponsored below range sentences have increased over time. The extent of the reduction from the bottom of the guideline range has varied depending on the type of below range sentence. However, reductions have been largest for below range sentences based on substantial assistance.

NATIONAL TREND ANALYSIS

INFLUENCE OF THE GUIDELINES

The rate of within range sentences for powder cocaine trafficking offenses has generally decreased over time and the rate of non-government sponsored below range sentences has generally increased over time. In comparison, the rate of government sponsored below range sentences has remained generally stable.

Quarterly Data for Within-Range and Out-of-Range Sentences Powder Cocaine Trafficking Offenses Fiscal Years 1996-2011

NATIONAL TREND ANALYSIS

INFLUENCE OF THE GUIDELINES

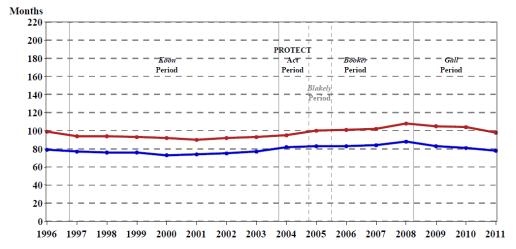

The relationship between the red and blue lines indicates that the average sentence for powder cocaine trafficking offenses has paralleled the average guideline minimum over time. Both the average guideline minimum and average sentence increased between fiscal years 2004 and 2008, but have decreased thereafter.

The percentage difference between the average guideline minimum and the average sentence has been generally consistent over the past sixteen years. The flatness of the line demonstrates that the influence of the guidelines has been stable in powder cocaine trafficking offenses.

Number of Offenders refers to the total number of powder cocaine trafficking offenders sentenced during the time period. During the Koon, PROTECT Act, Booker, and Gall periods, two districts did not sentence any powder cocaine trafficking offenses in each of the periods.

During the PROTECT Act period, seven districts imposed at least one sentence for a powder cocaine trafficking offense but did not impose a government sponsored below range sentence. The total number of powder cocaine trafficking offenders sentenced in each of those districts ranged from one to 22 offenders.

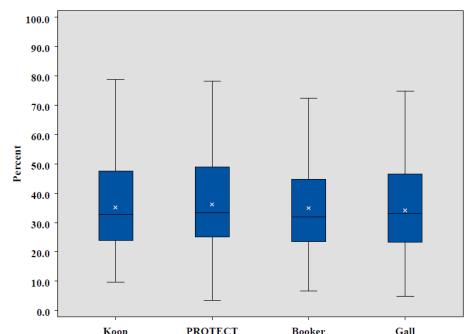

DISTRICT TREND ANALYSIS

GOVERNMENT SPONSORED BELOW RANGE SENTENCES

As illustrated by the relatively consistent size and placement of the boxes along the vertical axis, there has been general stability in the rate of government sponsored below range sentences among the middle 50 percent of districts across the periods.

DISTRICT TREND ANALYSIS

GOVERNMENT SPONSORED BELOW RANGE SENTENCES

Most districts in the *Koon* period clustered between average reductions of 40 and 59 percent below the guideline minimum, while most districts in the PROTECT Act clustered at average reductions of between 30 and 59 percent below the guideline minimum. In the *Booker* and *Gall* periods the extent of the reduction in most districts has been between 30 and 49 percent below the guideline minimum.

Extent of Reduction from Guideline Minimum Government Sponsored Below Range Sentences Powder Cocaine Trafficking Offenses Koon Period through Gall Period

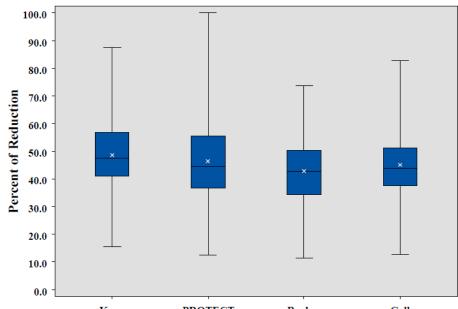

DISTRICT TREND ANALYSIS

GOVERNMENT SPONSORED BELOW RANGE SENTENCES

The spread in the extent of the reduction among the middle 50 percent of districts in government sponsored below range sentences has decreased from a high during the PROTECT Act period to a low in the *Gall* period. As illustrated by the higher placement of the box along the vertical axis, although the spread in rates was smaller in the *Gall* period than in the *Booker* period, the districts have averaged slightly higher reductions in the *Gall* period.

DISTRICT TREND ANALYSIS

SUBSTANTIAL ASSISTANCE SENTENCES

As illustrated by the highest bars in the graph, the greatest number of districts in each period clustered around substantial assistance rates of between ten and 39 percent. Between ten and 20 districts in every period had rates of between 40 and 49 percent. Fewer districts have had rates of 60 to 69 percent or 70 to 79 percent, and no districts have had rates higher than 80 percent.

Rate of Substantial Assistance Sentences Powder Cocaine Trafficking Offenses Koon Period through Gall Period

DISTRICT TREND ANALYSIS

SUBSTANTIAL ASSISTANCE SENTENCES

The table lists the five districts with the highest and lowest rates of substantial assistance sentences for each of the four periods.

Number of Offenders refers to the total number of powder cocaine trafficking offenders sentenced during the time period. During the Koon, PROTECT Act, Booker, and Gall periods, two districts did not sentence any powder cocaine trafficking offenses in each of the periods.

During the PROTECT Act period, seven districts imposed at least one sentence for a powder cocaine trafficking offense but did not impose a substantial assistance sentence. The total number of powder cocaine trafficking offenders sentenced in each of those districts ranged from one to 22 offenders.

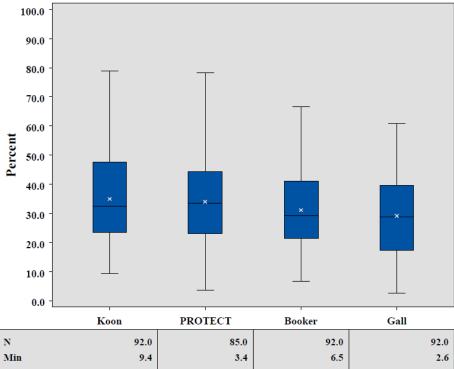

DISTRICT TREND ANALYSIS

SUBSTANTIAL ASSISTANCE SENTENCES

The spread in the rates of below range sentences based on substantial assistance was largest in the *Koon* period. As illustrated by the lower placement of the boxes on the vertical axis, the middle 50 percent of districts averaged slightly lower substantial assistance rates over time.

*Click on chart for corresponding table.

DISTRICT TREND ANALYSIS

OTHER GOVERNMENT SPONSORED BELOW RANGE SENTENCES

In the *Booker* and *Gall* periods, the majority of districts have reported other government sponsored below range sentences, but generally at rates of less than ten percent.

During the *Koon* period, except for substantial assistance motions by the government, the Commission did not differentiate between court-sponsored and other types of government-sponsored below range sentences. Accordingly, there are no reported other government sponsored below range sentences for the *Koon* period.

Rate of Other Government Sponsored Below Range Sentences Powder Cocaine Trafficking Offenses PROTECT Act Period through Gall Period

Number of Offenders refers to the total number of powder cocaine trafficking offenders sentenced during the time period. Data on other government sponsored below range sentences is unavailable for the Koon period. During the PROTECT Act, Booker, and Gall periods, two districts did not sentence any powder cocaine trafficking offenses in each of the periods. During the PROTECT Act period, 70 districts imposed at least one sentence for a powder cocaine trafficking offense but did not impose an other government sponsored below range sentence. The total number of powder cocaine trafficking offenders sentenced in each of those districts ranged from one to 471 offenders.

During the Booker period, 26 districts imposed at least one sentence for a powder cocaine trafficking offense but did not impose an other government sponsored below range sentence. The total number of powder cocaine trafficking offenders sentenced in each of those districts ranged from five to 202 offenders.

During the Gall period, 16 districts imposed at least one sentence for a powder cocaine trafficking offense but did not impose an other government sponsored below range sentence. The total number of powder cocaine trafficking offenders sentenced in each of those districts ranged from seven to 297 offenders.

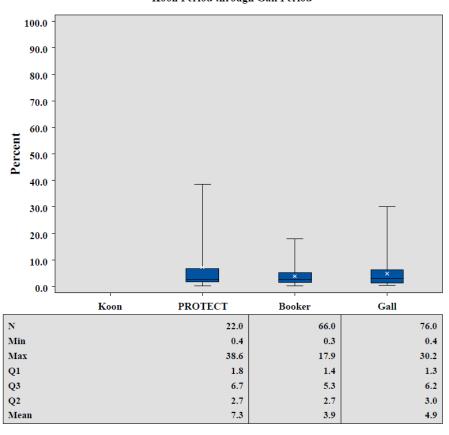

DISTRICT TREND ANALYSIS

OTHER GOVERNMENT SPONSORED BELOW RANGE SENTENCES

Although only 22 districts reported other government sponsored below range sentences in the PROTECT Act period, 66 districts did so in the *Booker* period and 76 districts in the *Gall* period.

Number of Offenders refers to the total number of powder cocaine trafficking offenders sentenced during the time period. During the Koon, PROTECT Act, Booker, and Gall periods, two districts did not sentence any powder cocaine trafficking offenses in each of the periods.

During the Koon period, six districts imposed at least one sentence for a powder cocaine trafficking offense but did not impose a non-government sponsored below range sentence. The total number of powder cocaine offenders sentenced in each of those districts ranged from seven to 114 offenders.

During the PROTECT Act period, 41 districts imposed at least one sentence for a powder cocaine trafficking offense but did not impose a non-government sponsored below range sentence. The total number of powder cocaine offenders sentenced in each of those districts ranged from one to 99 offenders.

During the Booker period, four districts imposed at least one sentence for a powder cocaine trafficking offense but did not impose a non-government sponsored below range sentence. The total number of powder cocaine offenders sentenced in each of those districts ranged from five to 29 offenders.

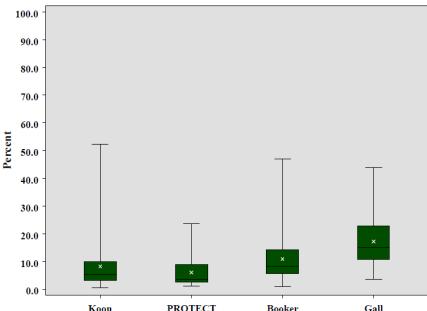

DISTRICT TREND ANALYSIS

NON-GOVERNMENT SPONSORED BELOW RANGE SENTENCES

The number of districts reporting non-government sponsored below range sentences has increased from the PROTECT Act period through the *Gall* period. In the *Booker* and *Gall* periods, districts have had generally higher non-government sponsored below range rates, and there has been a larger spread in rates among the middle 50 percent of districts.

Sentences of probation only are included as zero (0) months of imprisonment. Life sentences and other sentences exceeding 470 months are capped at 470 months. This analysis includes time of confinement as described in USSG §5C1.1 (Imposition of a Term of Imprisonment). Some cases were excluded due to missing or indeterminable sentencing information

Guideline minimums account for applicable statutory mandatory penalties. Guideline minimums of life and other guideline minimums exceeding 470 months are capped at 470 months.
