Vice Chair
US Sentencing Commission

Washington DC 20002-8002

Dear Ms. Jackson,

I am in support of the retroactivity of the proposed changes to the federal sentencing guidelines for which you have requested public comment. If requested, I would be available to testify before the commission. I am a taxpayer, age 53, and a resident of the state of Wisconsin. I believe that over-incarceration of the people in the U S should be corrected.

There are people who should be beneficiaries of retroactive amendments of the guidelines before the commission, these people are non violent offenders, mothers, people with good backgrounds and first time offenders.

Respectfully,

Dear Mr. Michael Courlander:

I am in support of the retroactivity of the proposed changes to the federal sentencing guidelines for which you have requested public comment. I specifically support the criminal history category starting at ZERO instead of ONE for people who do not have a criminal history. However, I support all of the amendments being made retroactive.

I believe the over-incarceration of people in the U.S. should be corrected, for moral as well as financial reasons. I am a taxpayer, a resident of the state of Missouri and believe our citizens who are incarcerated should and could benefit from these proposals.

Respectfully submitted,

Jacob H. Utterback
