

Reduce Drug Related Federal Sentences

Dear Public Affairs,

We are pleased to present you with this petition affirming this statement:

"Let The US Sentencing Commission know that you support their recommendation to reduce recommended sentences for most drug offenses. Ask them to expand this relief to all non-violent offenders. The Commission should also recommend that Congress take action to make these changes retroactive so that judges can grant clemency to people already serving long drug related prison sentences. "

Attached is a list of individuals who have added their names to this petition, as well as additional comments written by the petition signers themselves.

Sincerely,
Federal Clemency Advocacy Center

Reduce Drug Related Federal Sentences

I hope that my signature is not too late.

I have a step-son who when a young man, early 20's, was arrested on a drug charge that was across state lines, a Federal offense. He pled out and got "Federal Boot Camp". He was fortunate because it turned his life around. He went back to college and graduated with a degree in geology - Cum Laud. Then went on and got his Master's Degree. Here is the PROBLEM now. Whenever he applies for a job, he has to put down that he was a felon. He can't go into Canada to work because he is a past felon. It is permanently on his record. He is working in his field with a Masters and gets paid the same or less than a kid without a record gets paid with a High School diploma.

Feel passionately about this. Fact that violent offenders and non- violent drug offenders are imprisoned is insanity.

Everybody needs to sign this because it's a good thing. The prisons are over crowded and there are some people that deserve to get out early.

I agree. The war on drugs has gone way too far and far too many non violent people in prison for drug offenses. These laws have put perfectly good people in prison who made a bad decision and ruined their entire lives. Let the people that commit real crimes such as armed robbery, murder, assault and etc. sit in prison.
