***Notes to Drug Quantity Table:**

- (A) Unless otherwise specified, the weight of a controlled substance set forth in the table refers to the entire weight of any mixture or substance containing a detectable amount of the controlled substance. If a mixture or substance contains more than one controlled substance, the weight of the entire mixture or substance is assigned to the controlled substance that results in the greater offense level.
- (B) The terms “PCP (actual)”, “Amphetamine (actual)”, and “Methamphetamine (actual)” refer to the weight of the controlled substance, itself, contained in the mixture or substance. For example, a mixture weighing 10 grams containing PCP at 50% purity contains 5 grams of PCP (actual). In the case of a mixture or substance containing PCP, amphetamine, or methamphetamine, use the offense level determined by the entire weight of the mixture or substance, or the offense level determined by the weight of the PCP (actual), amphetamine (actual), or methamphetamine (actual), whichever is greater.

The term “Oxycodone (actual)” refers to the weight of the controlled substance, itself, contained in the pill, capsule, or mixture.

- (C) “Ice,” for the purposes of this guideline, means a mixture or substance containing d-methamphetamine hydrochloride of at least 80% purity.
- (D) “Cocaine base,” for the purposes of this guideline, means “crack.” “Crack” is the street name for a form of cocaine base, usually prepared by processing cocaine hydrochloride and sodium bicarbonate, and usually appearing in a lumpy, rocklike form.
- (E) In the case of an offense involving marijuana plants, treat each plant, regardless of sex, as equivalent to 100 grams of marijuana. *Provided*, however, that if the actual weight of the marijuana is greater, use the actual weight of the marijuana.
- (F) In the case of Schedule I or II Depressants (except gamma-hydroxybutyric acid), Schedule III substances, Schedule IV substances, and Schedule V substances, one “unit” means one pill, capsule, or tablet. If the substance (except gamma-hydroxybutyric acid) is in liquid form, one “unit” means 0.5 milliliters. For an anabolic steroid that is not in a pill, capsule, tablet, or liquid form (e.g., patch, topical cream, aerosol), the court shall determine the base offense level using a reasonable estimate of the quantity of anabolic steroid involved in the offense. In making a reasonable estimate, the court shall consider that each 25 milligrams of an anabolic steroid is one “unit”.
- (G) In the case of LSD on a carrier medium (e.g., a sheet of blotter paper), do not use the weight of the LSD/carrier medium. Instead, treat each dose of LSD on the carrier medium as equal to 0.4 milligrams of LSD for the purposes of the Drug Quantity Table.
- (H) Hashish, for the purposes of this guideline, means a resinous substance of cannabis that includes (i) one or more of the tetrahydrocannabinols (as listed in 21 C.F.R. § 1308.11(d)(31)), (ii) at least two of the following: cannabinol, cannabidiol, or cannabichromene, and (iii) fragments of plant material (such as cystolith fibers).
- (I) Hashish oil, for the purposes of this guideline, means a preparation of the soluble cannabinoids derived from cannabis that includes (i) one or more of the tetrahydrocannabinols (as listed in

21 C.F.R. § 1308.11(d)(31)), (ii) at least two of the following: cannabino, cannabidiol, or cannabichromene, and (iii) is essentially free of plant material (e.g., plant fragments). Typically, hashish oil is a viscous, dark colored oil, but it can vary from a dry resin to a colorless liquid.

Commentary

Statutory Provisions: 21 U.S.C. §§ 841(a), (b)(1)-(3), (7), (g), 860a, 865, 960(a), (b); 49 U.S.C. § 46317(b). For additional statutory provision(s), see Appendix A (Statutory Index).

Application Notes:

1. “Mixture or Substance”.—“Mixture or substance” as used in this guideline has the same meaning as in 21 U.S.C. § 841, except as expressly provided. Mixture or substance does not include materials that must be separated from the controlled substance before the controlled substance can be used. Examples of such materials include the fiberglass in a cocaine/fiberglass bonded suitcase, beeswax in a cocaine/beeswax statue, and waste water from an illicit laboratory used to manufacture a controlled substance. If such material cannot readily be separated from the mixture or substance that appropriately is counted in the Drug Quantity Table, the court may use any reasonable method to approximate the weight of the mixture or substance to be counted.

An upward departure nonetheless may be warranted when the mixture or substance counted in the Drug Quantity Table is combined with other, non-countable material in an unusually sophisticated manner in order to avoid detection.

Similarly, in the case of marihuana having a moisture content that renders the marihuana unsuitable for consumption without drying (this might occur, for example, with a bale of rain-soaked marihuana or freshly harvested marihuana that had not been dried), an approximation of the weight of the marihuana without such excess moisture content is to be used.

2. “Plant”.—For purposes of the guidelines, a “plant” is an organism having leaves and a readily observable root formation (e.g., a marihuana cutting having roots, a rootball, or root hairs is a marihuana plant).
3. Classification of Controlled Substances.—Certain pharmaceutical preparations are classified as Schedule III, IV, or V controlled substances by the Drug Enforcement Administration under 21 C.F.R. § 1308.13-15 even though they contain a small amount of a Schedule I or II controlled substance. For example, Tylenol 3 is classified as a Schedule III controlled substance even though it contains a small amount of codeine, a Schedule II opiate. For the purposes of the guidelines, the classification of the controlled substance under 21 C.F.R. § 1308.13-15 is the appropriate classification.
4. Applicability to “Counterfeit” Substances.—The statute and guideline also apply to “counterfeit” substances, which are defined in 21 U.S.C. § 802 to mean controlled substances that are falsely labeled so as to appear to have been legitimately manufactured or distributed.
5. Determining Drug Types and Drug Quantities.—Types and quantities of drugs not specified in the count of conviction may be considered in determining the offense level. See §1B1.3(a)(2) (Relevant Conduct). Where there is no drug seizure or the amount seized does

not reflect the scale of the offense, the court shall approximate the quantity of the controlled substance. In making this determination, the court may consider, for example, the price generally obtained for the controlled substance, financial or other records, similar transactions in controlled substances by the defendant, and the size or capability of any laboratory involved.

If the offense involved both a substantive drug offense and an attempt or conspiracy (e.g., sale of five grams of heroin and an attempt to sell an additional ten grams of heroin), the total quantity involved shall be aggregated to determine the scale of the offense.

In an offense involving an agreement to sell a controlled substance, the agreed-upon quantity of the controlled substance shall be used to determine the offense level unless the sale is completed and the amount delivered more accurately reflects the scale of the offense. For example, a defendant agrees to sell 500 grams of cocaine, the transaction is completed by the delivery of the controlled substance - actually 480 grams of cocaine, and no further delivery is scheduled. In this example, the amount delivered more accurately reflects the scale of the offense. In contrast, in a reverse sting, the agreed-upon quantity of the controlled substance would more accurately reflect the scale of the offense because the amount actually delivered is controlled by the government, not by the defendant. If, however, the defendant establishes that the defendant did not intend to provide or purchase, or was not reasonably capable of providing or purchasing, the agreed-upon quantity of the controlled substance, the court shall exclude from the offense level determination the amount of controlled substance that the defendant establishes that the defendant did not intend to provide or purchase or was not reasonably capable of providing or purchasing.

6. *Analogues and Controlled Substances Not Referenced in this Guideline.—Any reference to a particular controlled substance in these guidelines includes all salts, isomers, all salts of isomers, and, except as otherwise provided, any analogue of that controlled substance. Any reference to cocaine includes ecgonine and coca leaves, except extracts of coca leaves from which cocaine and ecgonine have been removed. For purposes of this guideline “analogue” has the meaning given the term “controlled substance analogue” in 21 U.S.C. § 802(32). In determining the appropriate sentence, the court also may consider whether the same quantity of analogue produces a greater effect on the central nervous system than the controlled substance for which it is an analogue.*

In the case of a controlled substance that is not specifically referenced in this guideline, determine the base offense level using the marijuana equivalency of the most closely related controlled substance referenced in this guideline. In determining the most closely related controlled substance, the court shall, to the extent practicable, consider the following:

- (A) *Whether the controlled substance not referenced in this guideline has a chemical structure that is substantially similar to a controlled substance referenced in this guideline.*
- (B) *Whether the controlled substance not referenced in this guideline has a stimulant, depressant, or hallucinogenic effect on the central nervous system that is substantially similar to the stimulant, depressant, or hallucinogenic effect on the central nervous system of a controlled substance referenced in this guideline.*

- (C) *Whether a lesser or greater quantity of the controlled substance not referenced in this guideline is needed to produce a substantially similar effect on the central nervous system as a controlled substance referenced in this guideline.*
7. Multiple Transactions or Multiple Drug Types.—*Where there are multiple transactions or multiple drug types, the quantities of drugs are to be added. Tables for making the necessary conversions are provided below.*
8. Use of Drug Equivalency Tables.—
- (A) Controlled Substances Not Referenced in Drug Quantity Table.—*The Commission has used the sentences provided in, and equivalences derived from, the statute (21 U.S.C. § 841(b)(1)), as the primary basis for the guideline sentences. The statute, however, provides direction only for the more common controlled substances, i.e., heroin, cocaine, PCP, methamphetamine, fentanyl, LSD and marihuana. In the case of a controlled substance that is not specifically referenced in the Drug Quantity Table, determine the base offense level as follows:*
- (i) *Use the Drug Equivalency Tables to convert the quantity of the controlled substance involved in the offense to its equivalent quantity of marihuana.*
- (ii) *Find the equivalent quantity of marihuana in the Drug Quantity Table.*
- (iii) *Use the offense level that corresponds to the equivalent quantity of marihuana as the base offense level for the controlled substance involved in the offense.*

(See also Application Note 6.) For example, in the Drug Equivalency Tables set forth in this Note, 1 gram of a substance containing oxymorphone, a Schedule I opiate, converts to an equivalent quantity of 5 kilograms of marihuana. In a case involving 100 grams of oxymorphone, the equivalent quantity of marihuana would be 500 kilograms, which corresponds to a base offense level of 26 in the Drug Quantity Table.

- (B) Combining Differing Controlled Substances.—*The Drug Equivalency Tables also provide a means for combining differing controlled substances to obtain a single offense level. In each case, convert each of the drugs to its marihuana equivalent, add the quantities, and look up the total in the Drug Quantity Table to obtain the combined offense level.*

For certain types of controlled substances, the marihuana equivalencies in the Drug Equivalency Tables are “capped” at specified amounts (e.g., the combined equivalent weight of all Schedule V controlled substances shall not exceed 2.49 kilograms of marihuana). Where there are controlled substances from more than one schedule (e.g., a quantity of a Schedule IV substance and a quantity of a Schedule V substance), determine the marihuana equivalency for each schedule separately (subject to the cap, if any, applicable to that schedule). Then add the marihuana equivalencies to determine the combined marihuana equivalency (subject to the cap, if any, applicable to the combined amounts).

Note: *Because of the statutory equivalences, the ratios in the Drug Equivalency Tables do not necessarily reflect dosages based on pharmacological equivalents.*

(C) Examples for Combining Differing Controlled Substances.—

- (i) *The defendant is convicted of selling 70 grams of a substance containing PCP (Level 20) and 250 milligrams of a substance containing LSD (Level 16). The PCP converts to 70 kilograms of marihuana; the LSD converts to 25 kilograms of marihuana. The total is therefore equivalent to 95 kilograms of marihuana, for which the Drug Quantity Table provides an offense level of 22.*
- (ii) *The defendant is convicted of selling 500 grams of marihuana (Level 6) and 10,000 units of diazepam (Level 6). The diazepam, a Schedule IV drug, is equivalent to 625 grams of marihuana. The total, 1.125 kilograms of marihuana, has an offense level of 8 in the Drug Quantity Table.*
- (iii) *The defendant is convicted of selling 80 grams of cocaine (Level 14) and 2 grams of cocaine base (Level 12). The cocaine is equivalent to 16 kilograms of marihuana, and the cocaine base is equivalent to 7.142 kilograms of marihuana. The total is therefore equivalent to 23.142 kilograms of marihuana, which has an offense level of 16 in the Drug Quantity Table.*
- (iv) *The defendant is convicted of selling 76,000 units of a Schedule III substance, 200,000 units of a Schedule IV substance, and 600,000 units of a Schedule V substance. The marihuana equivalency for the Schedule III substance is 76 kilograms of marihuana (below the cap of 79.99 kilograms of marihuana set forth as the maximum equivalent weight for Schedule III substances). The marihuana equivalency for the Schedule IV substance is subject to a cap of 9.99 kilograms of marihuana set forth as the maximum equivalent weight for Schedule IV substances (without the cap it would have been 12.5 kilograms). The marihuana equivalency for the Schedule V substance is subject to the cap of 2.49 kilograms of marihuana set forth as the maximum equivalent weight for Schedule V substances (without the cap it would have been 3.75 kilograms). The combined equivalent weight, determined by adding together the above amounts, is subject to the cap of 79.99 kilograms of marihuana set forth as the maximum combined equivalent weight for Schedule III, IV, and V substances. Without the cap, the combined equivalent weight would have been 88.48 (76 + 9.99 + 2.49) kilograms.*

9. Determining Quantity Based on Doses, Pills, or Capsules.—*If the number of doses, pills, or capsules but not the weight of the controlled substance is known, multiply the number of doses, pills, or capsules by the typical weight per dose in the table below to estimate the total weight of the controlled substance (e.g., 100 doses of Mescaline at 500 milligrams per dose = 50 grams of mescaline). The Typical Weight Per Unit Table, prepared from information provided by the Drug Enforcement Administration, displays the typical weight per dose, pill, or capsule*

for certain controlled substances. Do not use this table if any more reliable estimate of the total weight is available from case-specific information.

TYPICAL WEIGHT PER UNIT (DOSE, PILL, OR CAPSULE) TABLE

Hallucinogens

MDA	250 mg
MDMA	250 mg
Mescaline	500 mg
PCP*	5 mg
Peyote (dry)	12 gm
Peyote (wet)	120 gm
Psilocin*	10 mg
Psilocybe mushrooms (dry)	5 gm
Psilocybe mushrooms (wet)	50 gm

Stimulants

Amphetamine*	10 mg
Methamphetamine*	5 mg
Phenmetrazine (Preludin)*	75 mg

*For controlled substances marked with an asterisk, the weight per unit shown is the weight of the actual controlled substance, and not generally the weight of the mixture or substance containing the controlled substance. Therefore, use of this table provides a very conservative estimate of the total weight.

10. Determining Quantity of LSD.—LSD on a blotter paper carrier medium typically is marked so that the number of doses (“hits”) per sheet readily can be determined. When this is not the case, it is to be presumed that each 1/4 inch by 1/4 inch section of the blotter paper is equal to one dose.

In the case of liquid LSD (LSD that has not been placed onto a carrier medium), using the weight of the LSD alone to calculate the offense level may not adequately reflect the seriousness of the offense. In such a case, an upward departure may be warranted.

11. Application of Subsections (b)(1) and (b)(2).—

(A) Application of Subsection (b)(1).— Definitions of “firearm” and “dangerous weapon” are found in the Commentary to §1B1.1 (Application Instructions). The enhancement

for weapon possession in subsection (b)(1) reflects the increased danger of violence when drug traffickers possess weapons. The enhancement should be applied if the weapon was present, unless it is clearly improbable that the weapon was connected with the offense. For example, the enhancement would not be applied if the defendant, arrested at the defendant's residence, had an unloaded hunting rifle in the closet. The enhancement also applies to offenses that are referenced to §2D1.1; see §§2D1.2(a)(1) and (2), 2D1.5(a)(1), 2D1.6, 2D1.7(b)(1), 2D1.8, 2D1.11(c)(1), and 2D1.12(c)(1).

(B) Interaction of Subsections (b)(1) and (b)(2).—The enhancements in subsections (b)(1) and (b)(2) may be applied cumulatively (added together), as is generally the case when two or more specific offense characteristics each apply. See §1B1.1 (Application Instructions), Application Note 4(A). However, in a case in which the defendant merely possessed a dangerous weapon but did not use violence, make a credible threat to use violence, or direct the use of violence, subsection (b)(2) would not apply.

- 12. Application of Subsection (b)(5).—If the offense involved importation of amphetamine or methamphetamine, and an adjustment from subsection (b)(3) applies, do not apply subsection (b)(5).*
- 13. Application of Subsection (b)(7).—For purposes of subsection (b)(7), “mass-marketing by means of an interactive computer service” means the solicitation, by means of an interactive computer service, of a large number of persons to induce those persons to purchase a controlled substance. For example, subsection (b)(7) would apply to a defendant who operated a web site to promote the sale of Gamma-hydroxybutyric Acid (GHB) but would not apply to coconspirators who use an interactive computer service only to communicate with one another in furtherance of the offense. “Interactive computer service”, for purposes of subsection (b)(7) and this note, has the meaning given that term in section 230(e)(2) of the Communications Act of 1934 (47 U.S.C. § 230(f)(2)).*
- 14. Application of Subsection (b)(8).—For purposes of subsection (b)(8), “masking agent” means a substance that, when taken before, after, or in conjunction with an anabolic steroid, prevents the detection of the anabolic steroid in an individual's body.*
- 15. Application of Subsection (b)(9).—For purposes of subsection (b)(9), “athlete” means an individual who participates in an athletic activity conducted by (A) an intercollegiate athletic association or interscholastic athletic association; (B) a professional athletic association; or (C) an amateur athletic organization.*
- 16. Application of Subsection (b)(11).—Subsection (b)(11) does not apply if the purpose of the bribery was to obstruct or impede the investigation, prosecution, or sentencing of the defendant. Such conduct is covered by §3C1.1 (Obstructing or Impeding the Administration of Justice) and, if applicable, §2D1.1(b)(15)(D).*
- 17. Application of Subsection (b)(12).—Subsection (b)(12) applies to a defendant who knowingly maintains a premises (i.e., a building, room, or enclosure) for the purpose of manufacturing or distributing a controlled substance, including storage of a controlled substance for the purpose of distribution.*

Among the factors the court should consider in determining whether the defendant “maintained” the premises are (A) whether the defendant held a possessory interest in (e.g.,

owned or rented) the premises and (B) the extent to which the defendant controlled access to, or activities at, the premises.

Manufacturing or distributing a controlled substance need not be the sole purpose for which the premises was maintained, but must be one of the defendant's primary or principal uses for the premises, rather than one of the defendant's incidental or collateral uses for the premises. In making this determination, the court should consider how frequently the premises was used by the defendant for manufacturing or distributing a controlled substance and how frequently the premises was used by the defendant for lawful purposes.

18. Application of Subsection (b)(13).—

(A) Hazardous or Toxic Substances (Subsection (b)(13)(A)).—*Subsection (b)(13)(A) applies if the conduct for which the defendant is accountable under §1B1.3 (Relevant Conduct) involved any discharge, emission, release, transportation, treatment, storage, or disposal violation covered by the Resource Conservation and Recovery Act, 42 U.S.C. § 6928(d); the Federal Water Pollution Control Act, 33 U.S.C. § 1319(c); the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. § 9603(b); or 49 U.S.C. § 5124 (relating to violations of laws and regulations enforced by the Department of Transportation with respect to the transportation of hazardous material). In some cases, the enhancement under subsection (b)(13)(A) may not account adequately for the seriousness of the environmental harm or other threat to public health or safety (including the health or safety of law enforcement and cleanup personnel). In such cases, an upward departure may be warranted. Additionally, in determining the amount of restitution under §5E1.1 (Restitution) and in fashioning appropriate conditions of probation and supervision under §§5B1.3 (Conditions of Probation) and 5D1.3 (Conditions of Supervised Release), respectively, any costs of environmental cleanup and harm to individuals or property shall be considered by the court in cases involving the manufacture of amphetamine or methamphetamine and should be considered by the court in cases involving the manufacture of a controlled substance other than amphetamine or methamphetamine. See 21 U.S.C. § 853(q) (mandatory restitution for cleanup costs relating to the manufacture of amphetamine and methamphetamine).*

(B) Substantial Risk of Harm Associated with the Manufacture of Amphetamine and Methamphetamine (Subsection (b)(13)(C)–(D)).—

(i) Factors to Consider.—*In determining, for purposes of subsection (b)(13)(C)(ii) or (D), whether the offense created a substantial risk of harm to human life or the environment, the court shall include consideration of the following factors:*

(I) *The quantity of any chemicals or hazardous or toxic substances found at the laboratory, and the manner in which the chemicals or substances were stored.*

(II) *The manner in which hazardous or toxic substances were disposed, and the likelihood of release into the environment of hazardous or toxic substances.*

(III) *The duration of the offense, and the extent of the manufacturing operation.*

(IV) *The location of the laboratory (e.g., whether the laboratory is located in a residential neighborhood or a remote area), and the number of human lives placed at substantial risk of harm.*

(ii) Definitions.—*For purposes of subsection (b)(13)(D):*

“Incompetent” means an individual who is incapable of taking care of the individual’s self or property because of a mental or physical illness or disability, mental retardation, or senility.

“Minor” has the meaning given that term in Application Note 1 of the Commentary to §2A3.1 (Criminal Sexual Abuse).

19. Application of Subsection (b)(14).—*Subsection (b)(14) applies to offenses that involve the cultivation of marijuana on state or federal land or while trespassing on tribal or private land. Such offenses interfere with the ability of others to safely access and use the area and also pose or risk a range of other harms, such as harms to the environment.*

The enhancements in subsection (b)(13)(A) and (b)(14) may be applied cumulatively (added together), as is generally the case when two or more specific offense characteristics each apply. See §1B1.1 (Application Instructions), Application Note 4(A).

20. Application of Subsection (b)(15).—

(A) Distributing to a Specified Individual or Involving Such an Individual in the Offense (Subsection (b)(15)(B)).—*If the defendant distributes a controlled substance to an individual or involves an individual in the offense, as specified in subsection (b)(15)(B), the individual is not a “vulnerable victim” for purposes of §3A1.1(b).*

(B) Directly Involved in the Importation of a Controlled Substance (Subsection (b)(15)(C)).—*Subsection (b)(15)(C) applies if the defendant is accountable for the importation of a controlled substance under subsection (a)(1)(A) of §1B1.3 (Relevant Conduct (Factors that Determine the Guideline Range)), i.e., the defendant committed, aided, abetted, counseled, commanded, induced, procured, or willfully caused the importation of a controlled substance.*

If subsection (b)(3) or (b)(5) applies, do not apply subsection (b)(15)(C).

(C) Pattern of Criminal Conduct Engaged in as a Livelihood (Subsection (b)(15)(E)).—*For purposes of subsection (b)(15)(E), “pattern of criminal conduct” and “engaged in as a livelihood” have the meaning given such terms in §4B1.3 (Criminal Livelihood).*

21. Applicability of Subsection (b)(17).—*The applicability of subsection (b)(17) shall be determined without regard to whether the defendant was convicted of an offense that subjects the defendant to a mandatory minimum term of imprisonment. Section §5C1.2(b), which provides a minimum offense level of level 17, is not pertinent to the determination of whether subsection (b)(17) applies.*

22. Application of Subsection (e)(1).—
- (A) Definition.—For purposes of this guideline, “sexual offense” means a “sexual act” or “sexual contact” as those terms are defined in 18 U.S.C. § 2246(2) and (3), respectively.
- (B) Upward Departure Provision.—If the defendant committed a sexual offense against more than one individual, an upward departure would be warranted.
23. Interaction with §3B1.3.—A defendant who used special skills in the commission of the offense may be subject to an adjustment under §3B1.3 (Abuse of Position of Trust or Use of Special Skill). Certain professionals often occupy essential positions in drug trafficking schemes. These professionals include doctors, pilots, boat captains, financiers, bankers, attorneys, chemists, accountants, and others whose special skill, trade, profession, or position may be used to significantly facilitate the commission of a drug offense. Additionally, an enhancement under §3B1.3 ordinarily would apply in a case in which the defendant used his or her position as a coach to influence an athlete to use an anabolic steroid. Likewise, an adjustment under §3B1.3 ordinarily would apply in a case in which the defendant is convicted of a drug offense resulting from the authorization of the defendant to receive scheduled substances from an ultimate user or long-term care facility. See 21 U.S.C. § 822(g).
- Note, however, that if an adjustment from subsection (b)(3)(C) applies, do not apply §3B1.3 (Abuse of Position of Trust or Use of Special Skill).
24. Cases Involving Mandatory Minimum Penalties.—Where a mandatory (statutory) minimum sentence applies, this mandatory minimum sentence may be “waived” and a lower sentence imposed (including a downward departure), as provided in 28 U.S.C. § 994(n), by reason of a defendant’s “substantial assistance in the investigation or prosecution of another person who has committed an offense.” See §5K1.1 (Substantial Assistance to Authorities). In addition, 18 U.S.C. § 3553(f) provides an exception to the applicability of mandatory minimum sentences in certain cases. See §5C1.2 (Limitation on Applicability of Statutory Minimum Sentences in Certain Cases).
25. Imposition of Consecutive Sentence for 21 U.S.C. § 860a or § 865.—Sections 860a and 865 of title 21, United States Code, require the imposition of a mandatory consecutive term of imprisonment of not more than 20 years and 15 years, respectively. In order to comply with the relevant statute, the court should determine the appropriate “total punishment” and divide the sentence on the judgment form between the sentence attributable to the underlying drug offense and the sentence attributable to 21 U.S.C. § 860a or § 865, specifying the number of months to be served consecutively for the conviction under 21 U.S.C. § 860a or § 865. For example, if the applicable adjusted guideline range is 151-188 months and the court determines a “total punishment” of 151 months is appropriate, a sentence of 130 months for the underlying offense plus 21 months for the conduct covered by 21 U.S.C. § 860a or § 865 would achieve the “total punishment” in a manner that satisfies the statutory requirement of a consecutive sentence.
26. Cases Involving “Small Amount of Marihuana for No Remuneration”.—Distribution of “a small amount of marihuana for no remuneration”, 21 U.S.C. § 841(b)(4), is treated as simple possession, to which §2D2.1 applies.

27. Departure Considerations.—

- (A) Downward Departure Based on Drug Quantity in Certain Reverse Sting Operations.—If, in a reverse sting (an operation in which a government agent sells or negotiates to sell a controlled substance to a defendant), the court finds that the government agent set a price for the controlled substance that was substantially below the market value of the controlled substance, thereby leading to the defendant's purchase of a significantly greater quantity of the controlled substance than his available resources would have allowed him to purchase except for the artificially low price set by the government agent, a downward departure may be warranted.
- (B) Upward Departure Based on Drug Quantity.—In an extraordinary case, an upward departure above offense level 38 on the basis of drug quantity may be warranted. For example, an upward departure may be warranted where the quantity is at least ten times the minimum quantity required for level 38. Similarly, in the case of a controlled substance for which the maximum offense level is less than level 38, an upward departure may be warranted if the drug quantity substantially exceeds the quantity for the highest offense level established for that particular controlled substance.
- (C) Upward Departure Based on Unusually High Purity.—Trafficking in controlled substances, compounds, or mixtures of unusually high purity may warrant an upward departure, except in the case of PCP, amphetamine, methamphetamine, or oxycodone for which the guideline itself provides for the consideration of purity (see the footnote to the Drug Quantity Table). The purity of the controlled substance, particularly in the case of heroin, may be relevant in the sentencing process because it is probative of the defendant's role or position in the chain of distribution. Since controlled substances are often diluted and combined with other substances as they pass down the chain of distribution, the fact that a defendant is in possession of unusually pure narcotics may indicate a prominent role in the criminal enterprise and proximity to the source of the drugs. As large quantities are normally associated with high purities, this factor is particularly relevant where smaller quantities are involved.

Background: Offenses under 21 U.S.C. §§ 841 and 960 receive identical punishment based upon the quantity of the controlled substance involved, the defendant's criminal history, and whether death or serious bodily injury resulted from the offense.

The base offense levels in §2D1.1 are either provided directly by the Anti-Drug Abuse Act of 1986 or are proportional to the levels established by statute, and apply to all unlawful trafficking. Levels 30 and 24 in the Drug Quantity Table are the distinctions provided by the Anti-Drug Abuse Act; however, further refinement of drug amounts is essential to provide a logical sentencing structure for drug offenses. To determine these finer distinctions, the Commission consulted numerous experts and practitioners, including authorities at the Drug Enforcement Administration, chemists, attorneys, probation officers, and members of the Organized Crime Drug Enforcement Task Forces, who also advocate the necessity of these distinctions. Where necessary, this scheme has been modified in response to specific congressional directives to the Commission.

The base offense levels at levels 24 and 30 establish guideline ranges such that the statutory minimum falls within the range; e.g., level 30 ranges from 97 to 121 months, where the statutory minimum term is ten years or 120 months.

For marihuana plants, the Commission has adopted an equivalency of 100 grams per plant, or the actual weight of the usable marihuana, whichever is greater. The decision to treat each plant as equal to 100 grams is premised on the fact that the average yield from a mature marihuana plant equals 100 grams of marihuana. In controlled substance offenses, an attempt is assigned the same offense level as the object of the attempt. Consequently, the Commission adopted the policy that each plant is to be treated as the equivalent of an attempt to produce 100 grams of marihuana, except where the actual weight of the usable marihuana is greater.

Because the weights of LSD carrier media vary widely and typically far exceed the weight of the controlled substance itself, the Commission has determined that basing offense levels on the entire weight of the LSD and carrier medium would produce unwarranted disparity among offenses involving the same quantity of actual LSD (but different carrier weights), as well as sentences disproportionate to those for other, more dangerous controlled substances, such as PCP. Consequently, in cases involving LSD contained in a carrier medium, the Commission has established a weight per dose of 0.4 milligram for purposes of determining the base offense level.

The dosage weight of LSD selected exceeds the Drug Enforcement Administration's standard dosage unit for LSD of 0.05 milligram (i.e., the quantity of actual LSD per dose) in order to assign some weight to the carrier medium. Because LSD typically is marketed and consumed orally on a carrier medium, the inclusion of some weight attributable to the carrier medium recognizes (A) that offense levels for most other controlled substances are based upon the weight of the mixture containing the controlled substance without regard to purity, and (B) the decision in Chapman v. United States, 500 U.S. 453 (1991) (holding that the term "mixture or substance" in 21 U.S.C. § 841(b)(1) includes the carrier medium in which LSD is absorbed). At the same time, the weight per dose selected is less than the weight per dose that would equate the offense level for LSD on a carrier medium with that for the same number of doses of PCP, a controlled substance that comparative assessments indicate is more likely to induce violent acts and ancillary crime than is LSD. (Treating LSD on a carrier medium as weighing 0.5 milligram per dose would produce offense levels equivalent to those for PCP.) Thus, the approach decided upon by the Commission will harmonize offense levels for LSD offenses with those for other controlled substances and avoid an undue influence of varied carrier weight on the applicable offense level. Nonetheless, this approach does not override the applicability of "mixture or substance" for the purpose of applying any mandatory minimum sentence (see Chapman; §5G1.1(b)).

Frequently, a term of supervised release to follow imprisonment is required by statute for offenses covered by this guideline. Guidelines for the imposition, duration, and conditions of supervised release are set forth in Chapter Five, Part D (Supervised Release).

Subsection (b)(12) implements the directive to the Commission in section 6(2) of Public Law 111–220.

Subsection (b)(13)(A) implements the instruction to the Commission in section 303 of Public Law 103–237.

Subsections (b)(13)(C)(ii) and (D) implement, in a broader form, the instruction to the Commission in section 102 of Public Law 106–310.

Subsection (b)(15) implements the directive to the Commission in section 6(3) of Public Law 111–220.

§2D1.2. Drug Offenses Occurring Near Protected Locations or Involving Underage or Pregnant Individuals; Attempt or Conspiracy

- (a) Base Offense Level (Apply the greatest):
- (1) **2** plus the offense level from §2D1.1 applicable to the quantity of controlled substances directly involving a protected location or an underage or pregnant individual; or
 - (2) **1** plus the offense level from §2D1.1 applicable to the total quantity of controlled substances involved in the offense; or
 - (3) **26**, if the offense involved a person less than eighteen years of age; or
 - (4) **13**, otherwise.
