*Notes to Drug Quantity Table:

- (A) Unless otherwise specified, the weight of a controlled substance set forth in the table refers to the entire weight of any mixture or substance containing a detectable amount of the controlled substance. If a mixture or substance contains more than one controlled substance, the weight of the entire mixture or substance is assigned to the controlled substance that results in the greater offense level.
- (B) The terms “*PCP (actual)*”, “*Amphetamine (actual)*”, and “*Methamphetamine (actual)*” refer to the weight of the controlled substance, itself, contained in the mixture or substance. For example, a mixture weighing 10 grams containing PCP at 50% purity contains 5 grams of PCP (actual). In the case of a mixture or substance containing PCP, amphetamine, or methamphetamine, use the offense level determined by the entire weight of the mixture or substance, or the offense level determined by the weight of the PCP (actual), amphetamine (actual), or methamphetamine (actual), whichever is greater.

The terms “**Hydrocodone (actual)**” and “**Oxycodone (actual)**” refer to the weight of the controlled substance, itself, contained in the pill, capsule, or mixture.

- (C) “**Ice**,” for the purposes of this guideline, means a mixture or substance containing d-methamphetamine hydrochloride of at least 80% purity.
- (D) “**Cocaine base**,” for the purposes of this guideline, means “crack.” “**Crack**” is the street name for a form of cocaine base, usually prepared by processing cocaine hydrochloride and sodium bicarbonate, and usually appearing in a lumpy, rocklike form.
- (E) In the case of an offense involving marijuana plants, treat each plant, regardless of sex, as equivalent to 100 grams of marijuana. *Provided*, however, that if the actual weight of the marijuana is greater, use the actual weight of the marijuana.
- (F) In the case of Schedule I or II Depressants (except gamma-hydroxybutyric acid), Schedule III substances, Schedule IV substances, and Schedule V substances, one “**unit**” means one pill, capsule, or tablet. If the substance (except gamma-hydroxybutyric acid) is in liquid form, one “**unit**” means 0.5 milliliters. For an anabolic steroid that is not in a pill, capsule, tablet, or liquid form (*e.g.*, patch, topical cream, aerosol), the court shall determine the base offense level using a reasonable estimate of the quantity of anabolic steroid involved in the offense. In making a reasonable estimate, the court shall consider that each 25 milligrams of an anabolic steroid is one “unit”.
- (G) In the case of LSD on a carrier medium (*e.g.*, a sheet of blotter paper), do not use the weight of the LSD/carrier medium. Instead, treat each dose of LSD on the carrier medium as equal to 0.4 milligrams of LSD for the purposes of the Drug Quantity Table.
- (H) **Hashish**, for the purposes of this guideline, means a resinous substance of cannabis that includes (i) one or more of the tetrahydrocannabinols (as listed in 21 C.F.R. § 1308.11(d)(31)), (ii) at least two of the following: cannabidiol, cannabidiol, or cannabichromene, and (iii) fragments of plant material (such as cystolith fibers).
- (I) **Hashish oil**, for the purposes of this guideline, means a preparation of the soluble cannabinoids derived from cannabis that includes (i) one or more of the tetrahydrocannabinols (as listed in 21 C.F.R. § 1308.11(d)(31)), (ii) at least two of the following: cannabidiol, cannabidiol, or cannabichromene, and (iii) is essentially free of plant material (*e.g.*, plant fragments). Typically, hashish oil is a viscous, dark colored oil, but it can vary from a dry resin to a colorless liquid.
- (J) **Fentanyl analogue**, for the purposes of this guideline, means any substance (including any salt, isomer, or salt of isomer thereof), whether a controlled substance or not, that has a chemical structure that is similar to fentanyl (N-phenyl-N-[1-(2-phenylethyl)-4-piperidinyl] propanamide).

§2D1.1

- (K) The term “**Converted Drug Weight**,” for purposes of this guideline, refers to a nominal reference designation that is used as a conversion factor in the Drug Conversion Tables set forth in the Commentary below, to determine the offense level for controlled substances that are not specifically referenced in the Drug Quantity Table or when combining differing controlled substances.

Commentary

Statutory Provisions: 21 U.S.C. §§ 841(a), (b)(1)–(3), (7), (g), 860a, 865, 960(a), (b); 49 U.S.C. § 46317(b). For additional statutory provision(s), *see* Appendix A (Statutory Index).

Application Notes:

1. **Definition of “Plant”.**—For purposes of the guidelines, a “*plant*” is an organism having leaves and a readily observable root formation (*e.g.*, a marijuana cutting having roots, a rootball, or root hairs is a marijuana plant).
2. **Application of Subsection (a).**—Subsection (a) provides base offense levels for offenses under 21 U.S.C. §§ 841 and 960 based upon the quantity of the controlled substance involved, the defendant’s criminal history, and whether death or serious bodily injury resulted from the offense.

Subsection (a)(1) provides a base offense level of 43 for offenses under 21 U.S.C. § 841(b)(1)(A), (b)(1)(B), or (b)(1)(C), or 21 U.S.C. § 960(b)(1), (b)(2), or (b)(3), to which the mandatory statutory term of life imprisonment applies because death or serious bodily injury resulted from the use of the controlled substance and the defendant committed the offense after one or more prior convictions for a serious drug felony, serious violent felony, or felony drug offense.

Subsection (a)(2) provides a base offense level of 38 for offenses under 21 U.S.C. § 841(b)(1)(A), (b)(1)(B), or (b)(1)(C), or 21 U.S.C. § 960(b)(1), (b)(2), or (b)(3), to which the statutory minimum term of imprisonment of not less than 20 years to life applies because death or serious bodily injury resulted from the use of the controlled substance.

Subsection (a)(3) provides a base offense level of 30 for offenses under 21 U.S.C. § 841(b)(1)(E) or 21 U.S.C. § 960(b)(5) to which the statutory maximum term of imprisonment of 30 years applies because death or serious bodily injury resulted from the use of the controlled substance and the defendant committed the offense after one or more prior convictions for a felony drug offense.

Subsection (a)(4) provides a base offense level of 26 for offenses under 21 U.S.C. § 841(b)(1)(E) or 21 U.S.C. § 960(b)(5) to which the statutory maximum term of imprisonment of 15 years applies because death or serious bodily injury resulted from the use of the controlled substance.

The terms “serious drug felony,” “serious violent felony,” and “felony drug offense” are defined in 21 U.S.C. § 802. The base offense levels in subsections (a)(1) through (a)(4) would also apply if the parties stipulate to the applicable offense described in those provisions for purposes of calculating the guideline range under §1B1.2 (Applicable Guidelines) or to any such base offense level.

3. **“Mixture or Substance”.**—“*Mixture or substance*” as used in this guideline has the same meaning as in 21 U.S.C. § 841, except as expressly provided. Mixture or substance does not include materials that must be separated from the controlled substance before the controlled substance can be used. Examples of such materials include the fiberglass in a cocaine/fiberglass bonded suitcase, beeswax in a cocaine/beeswax statue, and waste water from an illicit laboratory used to manufacture a controlled substance. If such material cannot readily be separated from

the mixture or substance that appropriately is counted in the Drug Quantity Table, the court may use any reasonable method to approximate the weight of the mixture or substance to be counted.

An upward departure nonetheless may be warranted when the mixture or substance counted in the Drug Quantity Table is combined with other, non-countable material in an unusually sophisticated manner in order to avoid detection.

Similarly, in the case of marihuana having a moisture content that renders the marihuana unsuitable for consumption without drying (this might occur, for example, with a bale of rain-soaked marihuana or freshly harvested marihuana that had not been dried), an approximation of the weight of the marihuana without such excess moisture content is to be used.

4. **In General.**—

(A) **Classification of Controlled Substances.**—Certain pharmaceutical preparations are classified as Schedule III, IV, or V controlled substances by the Drug Enforcement Administration under 21 C.F.R. § 1308.13–15 even though they contain a small amount of a Schedule I or II controlled substance. For example, Tylenol 3 is classified as a Schedule III controlled substance even though it contains a small amount of codeine, a Schedule II opiate. For the purposes of the guidelines, the classification of the controlled substance under 21 C.F.R. § 1308.13–15 is the appropriate classification.

(B) **Applicability to “Counterfeit” Substances.**—The statute and guideline also apply to “*counterfeit*” substances, which are defined in 21 U.S.C. § 802 to mean controlled substances that are falsely labeled so as to appear to have been legitimately manufactured or distributed.

5. **Determining Drug Types and Drug Quantities.**—Types and quantities of drugs not specified in the count of conviction may be considered in determining the offense level. *See* §1B1.3(a)(2) (Relevant Conduct). Where there is no drug seizure or the amount seized does not reflect the scale of the offense, the court shall approximate the quantity of the controlled substance. In making this determination, the court may consider, for example, the price generally obtained for the controlled substance, financial or other records, similar transactions in controlled substances by the defendant, and the size or capability of any laboratory involved.

If the offense involved both a substantive drug offense and an attempt or conspiracy (*e.g.*, sale of five grams of heroin and an attempt to sell an additional ten grams of heroin), the total quantity involved shall be aggregated to determine the scale of the offense.

In an offense involving an agreement to sell a controlled substance, the agreed-upon quantity of the controlled substance shall be used to determine the offense level unless the sale is completed and the amount delivered more accurately reflects the scale of the offense. For example, a defendant agrees to sell 500 grams of cocaine, the transaction is completed by the delivery of the controlled substance — actually 480 grams of cocaine, and no further delivery is scheduled. In this example, the amount delivered more accurately reflects the scale of the offense. In contrast, in a reverse sting, the agreed-upon quantity of the controlled substance would more accurately reflect the scale of the offense because the amount actually delivered is controlled by the government, not by the defendant. If, however, the defendant establishes that the defendant did not intend to provide or purchase, or was not reasonably capable of providing or purchasing, the agreed-upon quantity of the controlled substance, the court shall exclude from the offense level determination the amount of controlled substance that the defendant establishes that the defendant did not intend to provide or purchase or was not reasonably capable of providing or purchasing.

§2D1.1

6. **Analogues and Controlled Substances Not Referenced in this Guideline.**—Except as otherwise provided, any reference to a particular controlled substance in these guidelines includes all salts, isomers, all salts of isomers, and any analogue of that controlled substance. Any reference to cocaine includes ecgonine and coca leaves, except extracts of coca leaves from which cocaine and ecgonine have been removed. Unless otherwise specified, “*analogue*,” for purposes of this guideline, has the meaning given the term “controlled substance analogue” in 21 U.S.C. § 802(32). In determining the appropriate sentence, the court also may consider whether the same quantity of analogue produces a greater effect on the central nervous system than the controlled substance for which it is an analogue.

In the case of a controlled substance that is not specifically referenced in this guideline, determine the base offense level using the converted drug weight of the most closely related controlled substance referenced in this guideline. *See* Application Note 8. In determining the most closely related controlled substance, the court shall, to the extent practicable, consider the following:

- (A) Whether the controlled substance not referenced in this guideline has a chemical structure that is substantially similar to a controlled substance referenced in this guideline.
 - (B) Whether the controlled substance not referenced in this guideline has a stimulant, depressant, or hallucinogenic effect on the central nervous system that is substantially similar to the stimulant, depressant, or hallucinogenic effect on the central nervous system of a controlled substance referenced in this guideline.
 - (C) Whether a lesser or greater quantity of the controlled substance not referenced in this guideline is needed to produce a substantially similar effect on the central nervous system as a controlled substance referenced in this guideline.
7. **Multiple Transactions or Multiple Drug Types.**—Where there are multiple transactions or multiple drug types, the quantities of drugs are to be added. Tables for making the necessary conversions are provided below.
8. **Use of Drug Conversion Tables.**—
- (A) **Controlled Substances Not Referenced in Drug Quantity Table.**—The Commission has used the sentences provided in, and equivalences derived from, the statute (21 U.S.C. § 841(b)(1)) as the primary basis for the guideline sentences. The statute, however, provides direction only for the more common controlled substances, *i.e.*, heroin, cocaine, PCP, methamphetamine, fentanyl, LSD, and marijuana. In the case of a controlled substance that is not specifically referenced in the Drug Quantity Table, determine the base offense level as follows:
 - (i) Use the Drug Conversion Tables to find the converted drug weight of the controlled substance involved in the offense.
 - (ii) Find the corresponding converted drug weight in the Drug Quantity Table.
 - (iii) Use the offense level that corresponds to the converted drug weight determined above as the base offense level for the controlled substance involved in the offense.
- (*See also* Application Note 6.) For example, in the Drug Conversion Tables set forth in this Note, 1 gram of a substance containing oxymorphone, a Schedule I opiate, converts to 5 kil-

ograms of converted drug weight. In a case involving 100 grams of oxymorphone, the converted drug weight would be 500 kilograms, which corresponds to a base offense level of 26 in the Drug Quantity Table.

- (B) **Combining Differing Controlled Substances.**—The Drug Conversion Tables also provide a means for combining differing controlled substances to obtain a single offense level. In each case, convert each of the drugs to its converted drug weight, add the quantities, and look up the total in the Drug Quantity Table to obtain the combined offense level.

For certain types of controlled substances, the converted drug weights assigned in the Drug Conversion Tables are “capped” at specified amounts (*e.g.*, the combined converted weight of all Schedule V controlled substances shall not exceed 2.49 kilograms of converted drug weight). Where there are controlled substances from more than one schedule (*e.g.*, a quantity of a Schedule IV substance and a quantity of a Schedule V substance), determine the converted drug weight for each schedule separately (subject to the cap, if any, applicable to that schedule). Then add the converted drug weights to determine the combined converted drug weight (subject to the cap, if any, applicable to the combined amounts).

Note: Because of the statutory equivalences, the ratios in the Drug Conversion Tables do not necessarily reflect dosages based on pharmacological equivalents.

- (C) **Examples for Combining Differing Controlled Substances.**—

- (i) The defendant is convicted of selling 70 grams of a substance containing PCP (Level 20) and 250 milligrams of a substance containing LSD (Level 16). The PCP converts to 70 kilograms of converted drug weight; the LSD converts to 25 kilograms of converted drug weight. The total therefore converts to 95 kilograms of converted drug weight, for which the Drug Quantity Table provides an offense level of 22.
- (ii) The defendant is convicted of selling 500 grams of marijuana (Level 6) and 10,000 units of diazepam (Level 6). The marijuana converts to 500 grams of converted drug weight. The diazepam, a Schedule IV drug, converts to 625 grams of converted drug weight. The total, 1.125 kilograms of converted drug weight, has an offense level of 8 in the Drug Quantity Table.
- (iii) The defendant is convicted of selling 80 grams of cocaine (Level 14) and 2 grams of cocaine base (Level 12). The cocaine converts to 16 kilograms of converted drug weight, and the cocaine base converts to 7.142 kilograms of converted drug weight. The total therefore converts to 23.142 kilograms of converted drug weight, which has an offense level of 16 in the Drug Quantity Table.
- (iv) The defendant is convicted of selling 76,000 units of a Schedule III substance, 200,000 units of a Schedule IV substance, and 600,000 units of a Schedule V substance. The converted drug weight for the Schedule III substance is 76 kilograms (below the cap of 79.99 kilograms of converted drug weight set forth as the maximum converted weight for Schedule III substances). The converted drug weight for the Schedule IV substance is subject to a cap of 9.99 kilograms set forth as the maximum converted weight for Schedule IV substances (without the cap it would have been 12.5 kilograms). The converted drug weight for the Schedule V substance is subject to the cap of 2.49 kilograms set forth as the maximum converted weight for Schedule V substances (without the cap it would have been 3.75 kilograms). The combined converted weight, determined by adding together the above amounts, is subject to the cap

§2D1.1

of 79.99 kilograms of converted drug weight set forth as the maximum combined converted weight for Schedule III, IV, and V substances. Without the cap, the combined converted weight would have been 88.48 (76 + 9.99 + 2.49) kilograms.

**Provided, that the minimum offense level from the Drug Quantity Table for any synthetic cannabinoid (except a Schedule III, IV, or V substance) individually, or in combination with another controlled substance, is level 12.*

“Synthetic Cannabinoid,” for purposes of this guideline, means any synthetic substance (other than synthetic tetrahydrocannabinol) that binds to and activates type 1 cannabinoid receptors (CB₁ receptors).

1 kg = 1,000 gm
1 gm = 1,000 mg
1 grain = 64.8 mg.

9. **Determining Quantity Based on Doses, Pills, or Capsules.**—If the number of doses, pills, or capsules but not the weight of the controlled substance is known, multiply the number of doses, pills, or capsules by the typical weight per dose in the table below to estimate the total weight of the controlled substance (e.g., 100 doses of Mescaline at 500 milligrams per dose = 50 grams of mescaline). The Typical Weight Per Unit Table, prepared from information provided by the Drug Enforcement Administration, displays the typical weight per dose, pill, or capsule for certain controlled substances. Do not use this table if any more reliable estimate of the total weight is available from case-specific information.

§2D1.1

*For controlled substances marked with an asterisk, the weight per unit shown is the weight of the actual controlled substance, and not generally the weight of the mixture or substance containing the controlled substance. Therefore, use of this table provides a very conservative estimate of the total weight.

10. **Determining Quantity of LSD.**—LSD on a blotter paper carrier medium typically is marked so that the number of doses (“hits”) per sheet readily can be determined. When this is not the case, it is to be presumed that each 1/4 inch by 1/4 inch section of the blotter paper is equal to one dose.

In the case of liquid LSD (LSD that has not been placed onto a carrier medium), using the weight of the LSD alone to calculate the offense level may not adequately reflect the seriousness of the offense. In such a case, an upward departure may be warranted.

11. **Application of Subsections (b)(1) and (b)(2).**—

(A) **Application of Subsection (b)(1).**—Definitions of “*firearm*” and “*dangerous weapon*” are found in the Commentary to §1B1.1 (Application Instructions). The enhancement for weapon possession in subsection (b)(1) reflects the increased danger of violence when drug traffickers possess weapons. The enhancement should be applied if the weapon was present, unless it is clearly improbable that the weapon was connected with the offense. For example, the enhancement would not be applied if the defendant, arrested at the defendant’s residence, had an unloaded hunting rifle in the closet. The enhancement also applies to offenses that are referenced to §2D1.1; see §§2D1.2(a)(1) and (2), 2D1.5(a)(1), 2D1.6, 2D1.7(b)(1), 2D1.8, 2D1.11(c)(1), and 2D1.12(c)(1).

(B) **Interaction of Subsections (b)(1) and (b)(2).**—The enhancements in subsections (b)(1) and (b)(2) may be applied cumulatively (added together), as is generally the case when two or more specific offense characteristics each apply. See §1B1.1 (Application Instructions), Application Note 4(A). However, in a case in which the defendant merely possessed a dangerous weapon but did not use violence, make a credible threat to use violence, or direct the use of violence, subsection (b)(2) would not apply.

12. **Application of Subsection (b)(5).**—If the offense involved importation of amphetamine or methamphetamine, and an adjustment from subsection (b)(3) applies, do not apply subsection (b)(5).

13. **Application of Subsection (b)(7).**—For purposes of subsection (b)(7), “*mass-marketing by means of an interactive computer service*” means the solicitation, by means of an interactive computer service, of a large number of persons to induce those persons to purchase a controlled substance. For example, subsection (b)(7) would apply to a defendant who operated a web site to promote the sale of Gamma-hydroxybutyric Acid (GHB) but would not apply to coconspirators who use an interactive computer service only to communicate with one another in furtherance of the offense. “*Interactive computer service*”, for purposes of subsection (b)(7) and this note, has the meaning given that term in section 230(e)(2) of the Communications Act of 1934 (47 U.S.C. § 230(f)(2)).

14. **Application of Subsection (b)(8).**—For purposes of subsection (b)(8), “*masking agent*” means a substance that, when taken before, after, or in conjunction with an anabolic steroid, prevents the detection of the anabolic steroid in an individual’s body.

15. **Application of Subsection (b)(9).**—For purposes of subsection (b)(9), “*athlete*” means an individual who participates in an athletic activity conducted by (A) an intercollegiate athletic association or interscholastic athletic association; (B) a professional athletic association; or (C) an amateur athletic organization.
16. **Application of Subsection (b)(11).**—Subsection (b)(11) does not apply if the purpose of the bribery was to obstruct or impede the investigation, prosecution, or sentencing of the defendant. Such conduct is covered by §3C1.1 (Obstructing or Impeding the Administration of Justice) and, if applicable, §2D1.1(b)(16)(D).
17. **Application of Subsection (b)(12).**—Subsection (b)(12) applies to a defendant who knowingly maintains a premises (*i.e.*, a building, room, or enclosure) for the purpose of manufacturing or distributing a controlled substance, including storage of a controlled substance for the purpose of distribution.

Among the factors the court should consider in determining whether the defendant “maintained” the premises are (A) whether the defendant held a possessory interest in (*e.g.*, owned or rented) the premises and (B) the extent to which the defendant controlled access to, or activities at, the premises.

Manufacturing or distributing a controlled substance need not be the sole purpose for which the premises was maintained, but must be one of the defendant’s primary or principal uses for the premises, rather than one of the defendant’s incidental or collateral uses for the premises. In making this determination, the court should consider how frequently the premises was used by the defendant for manufacturing or distributing a controlled substance and how frequently the premises was used by the defendant for lawful purposes.

18. **Application of Subsection (b)(14).**—
 - (A) **Hazardous or Toxic Substances (Subsection (b)(14)(A)).**—Subsection (b)(14)(A) applies if the conduct for which the defendant is accountable under §1B1.3 (Relevant Conduct) involved any discharge, emission, release, transportation, treatment, storage, or disposal violation covered by the Resource Conservation and Recovery Act, 42 U.S.C. § 6928(d); the Federal Water Pollution Control Act, 33 U.S.C. § 1319(c); the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. § 9603(b); or 49 U.S.C. § 5124 (relating to violations of laws and regulations enforced by the Department of Transportation with respect to the transportation of hazardous material). In some cases, the enhancement under subsection (b)(14)(A) may not account adequately for the seriousness of the environmental harm or other threat to public health or safety (including the health or safety of law enforcement and cleanup personnel). In such cases, an upward departure may be warranted. Additionally, in determining the amount of restitution under §5E1.1 (Restitution) and in fashioning appropriate conditions of probation and supervision under §§5B1.3 (Conditions of Probation) and 5D1.3 (Conditions of Supervised Release), respectively, any costs of environmental cleanup and harm to individuals or property shall be considered by the court in cases involving the manufacture of amphetamine or methamphetamine and should be considered by the court in cases involving the manufacture of a controlled substance other than amphetamine or methamphetamine. *See* 21 U.S.C. § 853(q) (mandatory restitution for cleanup costs relating to the manufacture of amphetamine and methamphetamine).

§2D1.1

(B) **Substantial Risk of Harm Associated with the Manufacture of Amphetamine and Methamphetamine (Subsection (b)(14)(C)–(D)).—**

(i) **Factors to Consider.**—In determining, for purposes of subsection (b)(14)(C)(ii) or (D), whether the offense created a substantial risk of harm to human life or the environment, the court shall include consideration of the following factors:

- (I) The quantity of any chemicals or hazardous or toxic substances found at the laboratory, and the manner in which the chemicals or substances were stored.
- (II) The manner in which hazardous or toxic substances were disposed, and the likelihood of release into the environment of hazardous or toxic substances.
- (III) The duration of the offense, and the extent of the manufacturing operation.
- (IV) The location of the laboratory (*e.g.*, whether the laboratory is located in a residential neighborhood or a remote area), and the number of human lives placed at substantial risk of harm.

(ii) **Definitions.**—For purposes of subsection (b)(14)(D):

“**Incompetent**” means an individual who is incapable of taking care of the individual’s self or property because of a mental or physical illness or disability, mental retardation, or senility.

“**Minor**” has the meaning given that term in Application Note 1 of the Commentary to §2A3.1 (Criminal Sexual Abuse).

19. **Application of Subsection (b)(15).**—Subsection (b)(15) applies to offenses that involve the cultivation of marijuana on state or federal land or while trespassing on tribal or private land. Such offenses interfere with the ability of others to safely access and use the area and also pose or risk a range of other harms, such as harms to the environment.

The enhancements in subsection (b)(14)(A) and (b)(15) may be applied cumulatively (added together), as is generally the case when two or more specific offense characteristics each apply. See §1B1.1 (Application Instructions), Application Note 4(A).

20. **Application of Subsection (b)(16).**—

(A) **Distributing to a Specified Individual or Involving Such an Individual in the Offense (Subsection (b)(16)(B)).**—If the defendant distributes a controlled substance to an individual or involves an individual in the offense, as specified in subsection (b)(16)(B), the individual is not a “vulnerable victim” for purposes of §3A1.1(b).

(B) **Directly Involved in the Importation of a Controlled Substance (Subsection (b)(16)(C)).**—Subsection (b)(16)(C) applies if the defendant is accountable for the importation of a controlled substance under subsection (a)(1)(A) of §1B1.3 (Relevant Conduct (Factors that Determine the Guideline Range)), *i.e.*, the defendant committed, aided, abetted, counseled, commanded, induced, procured, or willfully caused the importation of a controlled substance.

If subsection (b)(3) or (b)(5) applies, do not apply subsection (b)(16)(C).

(C) **Pattern of Criminal Conduct Engaged in as a Livelihood (Subsection (b)(16)(E)).**—For purposes of subsection (b)(16)(E), “*pattern of criminal conduct*” and “*engaged in as a livelihood*” have the meaning given such terms in §4B1.3 (Criminal Livelihood).

21. **Applicability of Subsection (b)(18).**—The applicability of subsection (b)(18) shall be determined without regard to whether the defendant was convicted of an offense that subjects the defendant to a mandatory minimum term of imprisonment. Section 5C1.2(b), which provides that the applicable guideline range shall not be less than 24 to 30 months of imprisonment, is not pertinent to the determination of whether subsection (b)(18) applies.
22. **Application of Subsection (e)(1).**—
- (A) **Definition.**—For purposes of this guideline, “*sexual offense*” means a “sexual act” or “sexual contact” as those terms are defined in 18 U.S.C. § 2246(2) and (3), respectively.
- (B) **Upward Departure Provision.**—If the defendant committed a sexual offense against more than one individual, an upward departure would be warranted.
23. **Interaction with §3B1.3.**—A defendant who used special skills in the commission of the offense may be subject to an adjustment under §3B1.3 (Abuse of Position of Trust or Use of Special Skill). Certain professionals often occupy essential positions in drug trafficking schemes. These professionals include doctors, pilots, boat captains, financiers, bankers, attorneys, chemists, accountants, and others whose special skill, trade, profession, or position may be used to significantly facilitate the commission of a drug offense. Additionally, an enhancement under §3B1.3 ordinarily would apply in a case in which the defendant used his or her position as a coach to influence an athlete to use an anabolic steroid. Likewise, an adjustment under §3B1.3 ordinarily would apply in a case in which the defendant is convicted of a drug offense resulting from the authorization of the defendant to receive scheduled substances from an ultimate user or long-term care facility. *See* 21 U.S.C. § 822(g).

Note, however, that if an adjustment from subsection (b)(3)(C) applies, do not apply §3B1.3 (Abuse of Position of Trust or Use of Special Skill).

24. **Cases Involving Mandatory Minimum Penalties.**—Where a mandatory (statutory) minimum sentence applies, this mandatory minimum sentence may be “waived” and a lower sentence imposed (including a downward departure), as provided in 28 U.S.C. § 994(n), by reason of a defendant’s “substantial assistance in the investigation or prosecution of another person who has committed an offense.” *See* §5K1.1 (Substantial Assistance to Authorities). In addition, 18 U.S.C. § 3553(f) provides an exception to the applicability of mandatory minimum sentences in certain cases. *See* §5C1.2 (Limitation on Applicability of Statutory Minimum Sentences in Certain Cases).
25. **Imposition of Consecutive Sentence for 21 U.S.C. § 860a or § 865.**—Sections 860a and 865 of title 21, United States Code, require the imposition of a mandatory consecutive term of imprisonment of not more than 20 years and 15 years, respectively. In order to comply with the relevant statute, the court should determine the appropriate “total punishment” and divide the sentence on the judgment form between the sentence attributable to the underlying drug offense and the sentence attributable to 21 U.S.C. § 860a or § 865, specifying the number of months to be served consecutively for the conviction under 21 U.S.C. § 860a or § 865. For example, if the applicable adjusted guideline range is 151–188 months and the court determines a “total punishment” of 151 months is appropriate, a sentence of 130 months for the underlying offense plus 21 months for the conduct covered by 21 U.S.C. § 860a or § 865 would achieve the “total punishment” in a manner that satisfies the statutory requirement of a consecutive sentence.

§2D1.1

26. **Cases Involving “Small Amount of Marihuana for No Remuneration”.**—Distribution of “a small amount of marihuana for no remuneration”, 21 U.S.C. § 841(b)(4), is treated as simple possession, to which §2D2.1 applies.
27. **Departure Considerations.**—
- (A) **Downward Departure Based on Drug Quantity in Certain Reverse Sting Operations.**—If, in a reverse sting (an operation in which a government agent sells or negotiates to sell a controlled substance to a defendant), the court finds that the government agent set a price for the controlled substance that was substantially below the market value of the controlled substance, thereby leading to the defendant’s purchase of a significantly greater quantity of the controlled substance than his available resources would have allowed him to purchase except for the artificially low price set by the government agent, a downward departure may be warranted.
- (B) **Upward Departure Based on Drug Quantity.**—In an extraordinary case, an upward departure above offense level 38 on the basis of drug quantity may be warranted. For example, an upward departure may be warranted where the quantity is at least ten times the minimum quantity required for level 38. Similarly, in the case of a controlled substance for which the maximum offense level is less than level 38, an upward departure may be warranted if the drug quantity substantially exceeds the quantity for the highest offense level established for that particular controlled substance.
- (C) **Upward Departure Based on Unusually High Purity.**—Trafficking in controlled substances, compounds, or mixtures of unusually high purity may warrant an upward departure, except in the case of PCP, amphetamine, methamphetamine, hydrocodone, or oxycodone for which the guideline itself provides for the consideration of purity (*see* the footnote to the Drug Quantity Table). The purity of the controlled substance, particularly in the case of heroin, may be relevant in the sentencing process because it is probative of the defendant’s role or position in the chain of distribution. Since controlled substances are often diluted and combined with other substances as they pass down the chain of distribution, the fact that a defendant is in possession of unusually pure narcotics may indicate a prominent role in the criminal enterprise and proximity to the source of the drugs. As large quantities are normally associated with high purities, this factor is particularly relevant where smaller quantities are involved.
- (D) **Departure Based on Potency of Synthetic Cathinones.**—In addition to providing converted drug weights for specific controlled substances and groups of substances, the Drug Conversion Tables provide converted drug weights for certain classes of controlled substances, such as synthetic cathinones. In the case of a synthetic cathinone that is not specifically referenced in this guideline, the converted drug weight for the class should be used to determine the appropriate offense level. However, there may be cases in which a substantially lesser or greater quantity of a synthetic cathinone is needed to produce an effect on the central nervous system similar to the effect produced by a typical synthetic cathinone in the class, such as methcathinone or alpha-PVP. In such a case, a departure may be warranted. For example, an upward departure may be warranted in cases involving MDPV, a substance of which a lesser quantity is usually needed to produce an effect on the central nervous system similar to the effect produced by a typical synthetic cathinone. In contrast, a downward departure may be warranted in cases involving methylone, a substance of which a greater quantity is usually needed to produce an effect on the central nervous system similar to the effect produced by a typical synthetic cathinone.

(E) Departures for Certain Cases involving Synthetic Cannabinoids.—

- (i) **Departure Based on Concentration of Synthetic Cannabinoids.**—Synthetic cannabinoids are manufactured as powder or crystalline substances. The concentrated substance is then usually sprayed on or soaked into a plant or other base material, and trafficked as part of a mixture. Nonetheless, there may be cases in which the substance involved in the offense is a synthetic cannabinoid not combined with any other substance. In such a case, an upward departure would be warranted.

There also may be cases in which the substance involved in the offense is a mixture containing a synthetic cannabinoid diluted with an unusually high quantity of base material. In such a case, a downward departure may be warranted.

- (ii) **Downward Departure Based on Potency of Synthetic Cannabinoids.**—In the case of a synthetic cannabinoid that is not specifically referenced in this guideline, the converted drug weight for the class should be used to determine the appropriate offense level. However, there may be cases in which a substantially greater quantity of a synthetic cannabinoid is needed to produce an effect on the central nervous system similar to the effect produced by a typical synthetic cannabinoid in the class, such as JWH-018 or AM-2201. In such a case, a downward departure may be warranted.

Background: Offenses under 21 U.S.C. §§ 841 and 960 receive identical punishment based upon the quantity of the controlled substance involved, the defendant’s criminal history, and whether death or serious bodily injury resulted from the offense.

The base offense levels in §2D1.1 are either provided directly by the Anti-Drug Abuse Act of 1986 or are proportional to the levels established by statute, and apply to all unlawful trafficking. Levels 30 and 24 in the Drug Quantity Table are the distinctions provided by the Anti-Drug Abuse Act; however, further refinement of drug amounts is essential to provide a logical sentencing structure for drug offenses. To determine these finer distinctions, the Commission consulted numerous experts and practitioners, including authorities at the Drug Enforcement Administration, chemists, attorneys, probation officers, and members of the Organized Crime Drug Enforcement Task Forces, who also advocate the necessity of these distinctions. Where necessary, this scheme has been modified in response to specific congressional directives to the Commission.

The base offense levels at levels 24 and 30 establish guideline ranges such that the statutory minimum falls within the range; *e.g.*, level 30 ranges from 97 to 121 months, where the statutory minimum term is ten years or 120 months.

For marijuana plants, the Commission has adopted an equivalency of 100 grams per plant, or the actual weight of the usable marijuana, whichever is greater. The decision to treat each plant as equal to 100 grams is premised on the fact that the average yield from a mature marijuana plant equals 100 grams of marijuana. In controlled substance offenses, an attempt is assigned the same offense level as the object of the attempt. Consequently, the Commission adopted the policy that each plant is to be treated as the equivalent of an attempt to produce 100 grams of marijuana, except where the actual weight of the usable marijuana is greater.

Because the weights of LSD carrier media vary widely and typically far exceed the weight of the controlled substance itself, the Commission has determined that basing offense levels on the entire weight of the LSD and carrier medium would produce unwarranted disparity among offenses involving the same quantity of actual LSD (but different carrier weights), as well as sentences disproportionate to those for other, more dangerous controlled substances, such as PCP. Consequently, in cases involving LSD contained in a carrier medium, the Commission has established a weight per dose of 0.4 milligram for purposes of determining the base offense level.

§2D1.1

The dosage weight of LSD selected exceeds the Drug Enforcement Administration’s standard dosage unit for LSD of 0.05 milligram (*i.e.*, the quantity of actual LSD per dose) in order to assign some weight to the carrier medium. Because LSD typically is marketed and consumed orally on a carrier medium, the inclusion of some weight attributable to the carrier medium recognizes (A) that offense levels for most other controlled substances are based upon the weight of the mixture containing the controlled substance without regard to purity, and (B) the decision in *Chapman v. United States*, 500 U.S. 453 (1991) (holding that the term “mixture or substance” in 21 U.S.C. § 841(b)(1) includes the carrier medium in which LSD is absorbed). At the same time, the weight per dose selected is less than the weight per dose that would equate the offense level for LSD on a carrier medium with that for the same number of doses of PCP, a controlled substance that comparative assessments indicate is more likely to induce violent acts and ancillary crime than is LSD. (Treating LSD on a carrier medium as weighing 0.5 milligram per dose would produce offense levels equivalent to those for PCP.) Thus, the approach decided upon by the Commission will harmonize offense levels for LSD offenses with those for other controlled substances and avoid an undue influence of varied carrier weight on the applicable offense level. Nonetheless, this approach does not override the applicability of “mixture or substance” for the purpose of applying any mandatory minimum sentence (*see Chapman*; §5G1.1(b)).

Frequently, a term of supervised release to follow imprisonment is required by statute for offenses covered by this guideline. Guidelines for the imposition, duration, and conditions of supervised release are set forth in Chapter Five, Part D (Supervised Release).

The last sentence of subsection (a)(5) implements the directive to the Commission in section 7(1) of Public Law 111–220.

Subsection (b)(2) implements the directive to the Commission in section 5 of Public Law 111–220.

Subsection (b)(3) is derived from section 6453 of Public Law 100–690.

Subsection (b)(11) implements the directive to the Commission in section 6(1) of Public Law 111–220.

Subsection (b)(12) implements the directive to the Commission in section 6(2) of Public Law 111–220.

Subsection (b)(14)(A) implements the instruction to the Commission in section 303 of Public Law 104–237.

Subsections (b)(14)(C)(ii) and (D) implement, in a broader form, the instruction to the Commission in section 102 of Public Law 106–310.

Subsection (b)(16) implements the directive to the Commission in section 6(3) of Public Law 111–220.

Subsection (b)(17) implements the directive to the Commission in section 7(2) of Public Law 111–220.

The Drug Conversion Tables set forth in Application Note 8 were previously called the Drug Equivalency Tables. In the original 1987 *Guidelines Manual*, the Drug Equivalency Tables provided four conversion factors (or “equivalents”) for determining the base offense level in cases involving either a controlled substance not referenced in the Drug Quantity Table or multiple controlled substances: heroin, cocaine, PCP, and marihuana. In 1991, the Commission amended the Drug Equivalency Tables to provide for one substance, marihuana, as the single conversion factor in §2D1.1.

See USSG App. C, Amendment 396 (effective November 1, 1991). In 2018, the Commission amended §2D1.1 to replace marijuana as the conversion factor with the new term “converted drug weight” and to change the title of the Drug Equivalency Tables to the “Drug Conversion Tables.” See USSG App. C, Amendment 808 (effective November 1, 2018).

§2D1.2. Drug Offenses Occurring Near Protected Locations or Involving Underage or Pregnant Individuals; Attempt or Conspiracy

- (a) Base Offense Level (Apply the greatest):
- (1) **2** plus the offense level from §2D1.1 applicable to the quantity of controlled substances directly involving a protected location or an underage or pregnant individual; or
 - (2) **1** plus the offense level from §2D1.1 applicable to the total quantity of controlled substances involved in the offense; or
 - (3) **26**, if the offense involved a person less than eighteen years of age; or
 - (4) **13**, otherwise.

Commentary

Statutory Provisions: 21 U.S.C. §§ 859 (formerly 21 U.S.C. § 845), 860 (formerly 21 U.S.C. § 845a), 861 (formerly 21 U.S.C. § 845b).

Application Note:

1. This guideline applies only in a case in which the defendant is convicted of a statutory violation of drug trafficking in a protected location or involving an underage or pregnant individual (including an attempt or conspiracy to commit such a violation) or in a case in which the defendant stipulated to such a statutory violation. See §1B1.2(a). In a case involving such a conviction but in which only part of the relevant offense conduct directly involved a protected location or an underage or pregnant individual, subsections (a)(1) and (a)(2) may result in different offense levels. For example, if the defendant, as part of the same course of conduct or common scheme or plan, sold 5 grams of heroin near a protected location and 10 grams of heroin elsewhere, the offense level from subsection (a)(1) would be level 14 (2 plus the offense level for the sale of

§2D1.5

5 grams of heroin, the amount sold near the protected location); the offense level from subsection (a)(2) would be level 15 (1 plus the offense level for the sale of 15 grams of heroin, the total amount of heroin involved in the offense).

§2D1.3. [Deleted]

<i>Historical Note</i>	Section 2D1.3 (Distributing Controlled Substances to Individuals Younger than Twenty-One Years, to Pregnant Women, or Within 1000 Feet of a School or College), effective November 1, 1987, amended effective January 15, 1988 (amendment 23), was deleted by consolidation with §2D1.2 effective November 1, 1989 (amendment 135).

§2D1.4. [Deleted]

<i>Historical Note</i>	Section 2D1.4 (Attempts and Conspiracies), effective November 1, 1987, amended effective November 1, 1989 (amendments 136–138), was deleted by consolidation with the guidelines applicable to the underlying substantive offenses effective November 1, 1992 (amendment 447).

§2D1.5. Continuing Criminal Enterprise; Attempt or Conspiracy

- (a) Base Offense Level (Apply the greater):
- (1) 4 plus the offense level from §2D1.1 applicable to the underlying offense; or
 - (2) 38.

Commentary

Statutory Provision: 21 U.S.C. § 848.

Application Notes:

1. **Inapplicability of Chapter Three Adjustment.**—Do not apply any adjustment from Chapter Three, Part B (Role in the Offense).

2. **Upward Departure Provision.**—If as part of the enterprise the defendant sanctioned the use of violence, or if the number of persons managed by the defendant was extremely large, an upward departure may be warranted.
3. **“Continuing Series of Violations”.**—Under 21 U.S.C. § 848, certain conduct for which the defendant has previously been sentenced may be charged as part of the instant offense to establish a “continuing series of violations.” A sentence resulting from a conviction sustained prior to the last overt act of the instant offense is to be considered a prior sentence under §4A1.2(a)(1) and not part of the instant offense.
4. **Multiple Counts.**—Violations of 21 U.S.C. § 848 will be grouped with other drug offenses for the purpose of applying Chapter Three, Part D (Multiple Counts).

Background: Because a conviction under 21 U.S.C. § 848 establishes that a defendant controlled and exercised authority over one of the most serious types of ongoing criminal activity, this guideline provides a minimum base offense level of 38. An adjustment from Chapter Three, Part B is not authorized because the offense level of this guideline already reflects an adjustment for role in the offense.

Section 848 of title 21, United States Code, provides a 20-year minimum mandatory penalty for the first conviction, a 30-year minimum mandatory penalty for a second conviction, and a mandatory life sentence for principal administrators of extremely large enterprises. If the application of the guidelines results in a sentence below the minimum sentence required by statute, the statutory minimum shall be the guideline sentence. *See* §5G1.1(b).

§2D1.6. Use of Communication Facility in Committing Drug Offense; Attempt or Conspiracy

- (a) **Base Offense Level:** the offense level applicable to the underlying offense.

Commentary

Statutory Provision: 21 U.S.C. § 843(b).

Application Note:

1. Where the offense level for the underlying offense is to be determined by reference to §2D1.1, *see* Application Note 5 of the Commentary to §2D1.1 for guidance in determining the scale of the offense. Note that the Drug Quantity Table in §2D1.1 provides a minimum offense level of 12 where the offense involves heroin (or other Schedule I or II opiates), cocaine (or other Schedule I or II stimulants), cocaine base, PCP, methamphetamine, LSD (or other Schedule I or II hallucinogens), fentanyl (N-phenyl-N-[1-(2-phenylethyl)-4-piperidinyl] propanamide), or fentanyl analogue (§2D1.1(c)(14)); a minimum offense level of 8 where the offense involves flunitrazepam (§2D1.1(c)(16)); and a minimum offense level of 6 otherwise (§2D1.1(c)(17)).

Background: This section covers the use of a communication facility in committing a drug offense. A communication facility includes any public or private instrument used in the transmission of writing, signs, signals, pictures, and sound; *e.g.*, telephone, wire, radio.

------------------------	---

§2D1.7. Unlawful Sale or Transportation of Drug Paraphernalia; Attempt or Conspiracy

- (a) Base Offense Level: **12**
- (b) Cross Reference
 - (1) If the offense involved a controlled substance, apply §2D1.1 (Unlawful Manufacturing, Importing, Exporting, or Trafficking) or §2D2.1 (Unlawful Possession), as appropriate, if the resulting offense level is greater than that determined above.

Commentary

Statutory Provision: 21 U.S.C. § 863 (formerly 21 U.S.C. § 857).

Application Note:

1. The typical case addressed by this guideline involves small-scale trafficking in drug paraphernalia (generally from a retail establishment that also sells items that are not unlawful). In a case involving a large-scale dealer, distributor, or manufacturer, an upward departure may be warranted. Conversely, where the offense was not committed for pecuniary gain (*e.g.*, transportation for the defendant's personal use), a downward departure may be warranted.

<i>Historical Note</i>	Effective November 1, 1987. Amended effective November 1, 1991 (amendment 397); November 1, 1992 (amendment 447).

§2D1.8. Renting or Managing a Drug Establishment; Attempt or Conspiracy

- (a) Base Offense Level:
 - (1) The offense level from §2D1.1 applicable to the underlying controlled substance offense, except as provided below.
 - (2) If the defendant had no participation in the underlying controlled substance offense other than allowing use of the premises, the offense level shall be **4** levels less than the offense level from §2D1.1 applicable to the underlying controlled substance offense, but not greater than level **26**.

(b) Special Instruction

- (1) If the offense level is determined under subsection (a)(2), do not apply an adjustment under §3B1.2 (Mitigating Role).

Commentary

Statutory Provision: 21 U.S.C. § 856.

Application Note:

- 1. Subsection (a)(2) does not apply unless the defendant had no participation in the underlying controlled substance offense other than allowing use of the premises. For example, subsection (a)(2) would not apply to a defendant who possessed a dangerous weapon in connection with the offense, a defendant who guarded the cache of controlled substances, a defendant who arranged for the use of the premises for the purpose of facilitating a drug transaction, a defendant who allowed the use of more than one premises, a defendant who made telephone calls to facilitate the underlying controlled substance offense, or a defendant who otherwise assisted in the commission of the underlying controlled substance offense. Furthermore, subsection (a)(2) does not apply unless the defendant initially leased, rented, purchased, or otherwise acquired a possessory interest in the premises for a legitimate purpose. Finally, subsection (a)(2) does not apply if the defendant had previously allowed any premises to be used as a drug establishment without regard to whether such prior misconduct resulted in a conviction.

Background: This section covers the offense of knowingly opening, maintaining, managing, or controlling any building, room, or enclosure for the purpose of manufacturing, distributing, storing, or using a controlled substance contrary to law (*e.g.*, a “crack house”).

<i>Historical Note</i>	Effective November 1, 1987. Amended effective November 1, 1991 (amendment 394); November 1, 1992 (amendments 447 and 448); November 1, 2002 (amendment 640).

Commentary

Statutory Provision: 21 U.S.C. § 841(d)(1).

Background: This section covers the offense of assembling, placing, or causing to be placed, or maintaining a “booby-trap” on federal property where a controlled substance is being manufactured or distributed.

<i>Historical Note</i>	Effective November 1, 1987. Amended effective November 1, 1992 (amendment 447); November 1, 2002 (amendment 646).

§2D1.10

§2D1.10. Endangering Human Life While Illegally Manufacturing a Controlled Substance; Attempt or Conspiracy

- (a) Base Offense Level (Apply the greater):
 - (1) **3** plus the offense level from the Drug Quantity Table in §2D1.1; or
 - (2) **20**.
- (b) Specific Offense Characteristic
 - (1) (Apply the greater):
 - (A) If the offense involved the manufacture of amphetamine or methamphetamine, increase by **3** levels. If the resulting offense level is less than level **27**, increase to level **27**.
 - (B) If the offense (i) involved the manufacture of amphetamine or methamphetamine; and (ii) created a substantial risk of harm to the life of a minor or an incompetent, increase by **6** levels. If the resulting offense level is less than level **30**, increase to level **30**.

Commentary

Statutory Provision: 21 U.S.C. § 858.

Application Note:

1. **Substantial Risk of Harm Associated with the Manufacture of Amphetamine and Methamphetamine.—**
 - (A) **Factors to Consider.—**In determining, for purposes of subsection (b)(1)(B), whether the offense created a substantial risk of harm to the life of a minor or an incompetent, the court shall include consideration of the following factors:
 - (i) The quantity of any chemicals or hazardous or toxic substances found at the laboratory, and the manner in which the chemicals or substances were stored.
 - (ii) The manner in which hazardous or toxic substances were disposed, and the likelihood of release into the environment of hazardous or toxic substances.
 - (iii) The duration of the offense, and the extent of the manufacturing operation.
 - (iv) The location of the laboratory (*e.g.*, whether the laboratory is located in a residential neighborhood or a remote area), and the number of human lives placed at substantial risk of harm.

(B) **Definitions.**—For purposes of subsection (b)(1)(B):

“*Incompetent*” means an individual who is incapable of taking care of the individual’s self or property because of a mental or physical illness or disability, mental retardation, or senility.

“*Minor*” has the meaning given that term in Application Note 1 of the Commentary to §2A3.1 (Criminal Sexual Abuse).

Background: Subsection (b)(1) implements the instruction to the Commission in section 102 of Public Law 106–310.

§2D1.11. Unlawfully Distributing, Importing, Exporting or Possessing a Listed Chemical; Attempt or Conspiracy

- (a) Base Offense Level: The offense level from the Chemical Quantity Table set forth in subsection (d) or (e), as appropriate, except that if (A) the defendant receives an adjustment under §3B1.2 (Mitigating Role); and (B) the base offense level under subsection (d) is (i) level **32**, decrease by **2** levels; (ii) level **34** or level **36**, decrease by **3** levels; or (iii) level **38**, decrease by **4** levels.
- (b) Specific Offense Characteristics
 - (1) If a dangerous weapon (including a firearm) was possessed, increase by **2** levels.
 - (2) If the defendant is convicted of violating 21 U.S.C. § 841(c)(2) or (f)(1), or § 960(d)(2), (d)(3), or (d)(4), decrease by **3** levels, unless the defendant knew or believed that the listed chemical was to be used to manufacture a controlled substance unlawfully.
 - (3) If the offense involved (A) an unlawful discharge, emission, or release into the environment of a hazardous or toxic substance; or (B) the unlawful transportation, treatment, storage, or disposal of a hazardous waste, increase by **2** levels.
 - (4) If the defendant, or a person for whose conduct the defendant is accountable under §1B1.3 (Relevant Conduct), distributed a listed chemical through mass-marketing by means of an interactive computer service, increase by **2** levels.

§2D1.11

- (5) If the defendant is convicted under 21 U.S.C. § 865, increase by **2** levels.
- (6) If the defendant meets the criteria set forth in paragraphs (1)–(5) of subsection (a) of §5C1.2 (Limitation on Applicability of Statutory Minimum Sentences in Certain Cases), decrease by **2** levels.

(c) Cross Reference

- (1) If the offense involved unlawfully manufacturing a controlled substance, or attempting to manufacture a controlled substance unlawfully, apply §2D1.1 (Unlawful Manufacturing, Importing, Exporting, Trafficking) if the resulting offense level is greater than that determined above.

***Notes:**

- (A) Except as provided in Note (B), to calculate the base offense level in an offense that involves two or more chemicals, use the quantity of the single chemical that results in the greatest offense level, regardless of whether the chemicals are set forth in different tables or in different categories (*i.e.*, list I or list II) under subsection (d) or (e) of this guideline, as appropriate.

§2D1.11

- (B) To calculate the base offense level in an offense that involves two or more chemicals each of which is set forth in the Ephedrine, Pseudoephedrine, and Phenylpropanolamine Quantity Table, (i) aggregate the quantities of all such chemicals, and (ii) determine the base offense level corresponding to the aggregate quantity.
- (C) In a case involving ephedrine, pseudoephedrine, or phenylpropanolamine tablets, use the weight of the ephedrine, pseudoephedrine, or phenylpropanolamine contained in the tablets, not the weight of the entire tablets, in calculating the base offense level.

Commentary

Statutory Provisions: 21 U.S.C. §§ 841(c)(1), (2), (f)(1), 865, 960(d)(1), (2), (3), (4).

Application Notes:

1. Cases Involving Multiple Chemicals.—

- (A) **Determining the Base Offense Level for Two or More Chemicals.**—Except as provided in subdivision (B), if the offense involves two or more chemicals, use the quantity of the single chemical that results in the greatest offense level, regardless of whether the chemicals are set forth in different tables or in different categories (*i.e.*, list I or list II) under this guideline.

Example: The defendant was in possession of five kilograms of ephedrine and 300 grams of hydriodic acid. Ephedrine and hydriodic acid typically are used together in the same manufacturing process to manufacture methamphetamine. The base offense level for each chemical is calculated separately and the chemical with the higher base offense level is used. Five kilograms of ephedrine result in a base offense level of level 36; 300 grams of hydriodic acid result in a base offense level of level 24. In this case, the base offense level would be level 36.

- (B) **Determining the Base Offense Level for Offenses Involving Ephedrine, Pseudoephedrine, or Phenylpropanolamine.**—If the offense involves two or more chemicals each of which is set forth in the Ephedrine, Pseudoephedrine, and Phenylpropanolamine Quantity Table, (i) aggregate the quantities of all such chemicals, and (ii) determine the base offense level corresponding to the aggregate quantity.

Example: The defendant was in possession of 80 grams of ephedrine and 50 grams of phenylpropanolamine, an aggregate quantity of 130 grams of such chemicals. The base offense level corresponding to that aggregate quantity is level 30.

- (C) **Upward Departure.**—In a case involving two or more chemicals used to manufacture different controlled substances, or to manufacture one controlled substance by different manufacturing processes, an upward departure may be warranted if the offense level does not adequately address the seriousness of the offense.

- 2. **Application of Subsection (b)(1).**—“*Firearm*” and “*dangerous weapon*” are defined in the Commentary to §1B1.1 (Application Instructions). The adjustment in subsection (b)(1) should be applied if the weapon was present, unless it is improbable that the weapon was connected with the offense.

3. **Application of Subsection (b)(2).**—Convictions under 21 U.S.C. §§ 841(c)(2) and (f)(1), and 960(d)(2), (d)(3), and (d)(4) do not require that the defendant have knowledge or an actual belief that the listed chemical was to be used to manufacture a controlled substance unlawfully. In a case in which the defendant possessed or distributed the listed chemical without such knowledge or belief, a 3-level reduction is provided to reflect that the defendant is less culpable than one who possessed or distributed listed chemicals knowing or believing that they would be used to manufacture a controlled substance unlawfully.
4. **Application of Subsection (b)(3).**—Subsection (b)(3) applies if the conduct for which the defendant is accountable under §1B1.3 (Relevant Conduct) involved any discharge, emission, release, transportation, treatment, storage, or disposal violation covered by the Resource Conservation and Recovery Act, 42 U.S.C. § 6928(d), the Federal Water Pollution Control Act, 33 U.S.C. § 1319(c), the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. § 9603(b), and 49 U.S.C. § 5124 (relating to violations of laws and regulations enforced by the Department of Transportation with respect to the transportation of hazardous material). In some cases, the enhancement under subsection (b)(3) may not adequately account for the seriousness of the environmental harm or other threat to public health or safety (including the health or safety of law enforcement and cleanup personnel). In such cases, an upward departure may be warranted. Additionally, any costs of environmental cleanup and harm to persons or property should be considered by the court in determining the amount of restitution under §5E1.1 (Restitution) and in fashioning appropriate conditions of supervision under §§5B1.3 (Conditions of Probation) and 5D1.3 (Conditions of Supervised Release).
5. **Application of Subsection (b)(4).**—For purposes of subsection (b)(4), “*mass-marketing by means of an interactive computer service*” means the solicitation, by means of an interactive computer service, of a large number of persons to induce those persons to purchase a controlled substance. For example, subsection (b)(4) would apply to a defendant who operated a web site to promote the sale of Gamma-butyrolactone (GBL) but would not apply to coconspirators who use an interactive computer service only to communicate with one another in furtherance of the offense. “*Interactive computer service*”, for purposes of subsection (b)(4) and this note, has the meaning given that term in section 230(e)(2) of the Communications Act of 1934 (47 U.S.C. § 230(f)(2)).
6. **Imposition of Consecutive Sentence for 21 U.S.C. § 865.**—Section 865 of title 21, United States Code, requires the imposition of a mandatory consecutive term of imprisonment of not more than 15 years. In order to comply with the relevant statute, the court should determine the appropriate “total punishment” and, on the judgment form, divide the sentence between the sentence attributable to the underlying drug offense and the sentence attributable to 21 U.S.C. § 865, specifying the number of months to be served consecutively for the conviction under 21 U.S.C. § 865. For example, if the applicable adjusted guideline range is 151–188 months and the court determines a “total punishment” of 151 months is appropriate, a sentence of 130 months for the underlying offense plus 21 months for the conduct covered by 21 U.S.C. § 865 would achieve the “total punishment” in a manner that satisfies the statutory requirement of a consecutive sentence.
7. **Applicability of Subsection (b)(6).**—The applicability of subsection (b)(6) shall be determined without regard to the offense of conviction. If subsection (b)(6) applies, §5C1.2(b) does not apply. See §5C1.2(b)(2) (requiring an applicable guideline range of not less than 24 to 30 months of imprisonment if the “statutorily required minimum sentence is at least five years”).
8. **Application of Subsection (c)(1).**—“*Offense involved unlawfully manufacturing a controlled substance or attempting to manufacture a controlled substance unlawfully*,” as used in subsection (c)(1), means that the defendant, or a person for whose conduct the defendant is accountable under §1B1.3 (Relevant Conduct), completed the actions sufficient to constitute

§2D1.12

the offense of unlawfully manufacturing a controlled substance or attempting to manufacture a controlled substance unlawfully.

9. **Offenses Involving Immediate Precursors or Other Controlled Substances Covered Under §2D1.1.**—In certain cases, the defendant will be convicted of an offense involving a listed chemical covered under this guideline, and a related offense involving an immediate precursor or other controlled substance covered under §2D1.1 (Unlawfully Manufacturing, Importing, Exporting, or Trafficking). For example, P2P (an immediate precursor) and methylamine (a listed chemical) are used together to produce methamphetamine. Determine the offense level under each guideline separately. The offense level for methylamine is determined by using §2D1.11. The offense level for P2P is determined by using §2D1.1 (P2P is listed in the Drug Conversion Table under Cocaine and Other Schedule I and II Stimulants (and their immediate precursors)). Under the grouping rules of §3D1.2(b), the counts will be grouped together. Note that in determining the scale of the offense under §2D1.1, the quantity of both the controlled substance and listed chemical should be considered (*see* Application Note 5 in the Commentary to §2D1.1).

Background: Offenses covered by this guideline involve list I chemicals (including ephedrine, pseudoephedrine, and phenylpropanolamine) and list II chemicals. List I chemicals are important to the manufacture of a controlled substance and usually become part of the final product. For example, ephedrine reacts with other chemicals to form methamphetamine. The amount of ephedrine directly affects the amount of methamphetamine produced. List II chemicals are generally used as solvents, catalysts, and reagents.

Commentary

Statutory Provisions: 21 U.S.C. §§ 843(a)(6), (7), 864.

Application Notes:

1. If the offense involved the large-scale manufacture, distribution, transportation, exportation, or importation of prohibited flasks, equipment, chemicals, products, or material, an upward departure may be warranted.
2. “*Offense involved unlawfully manufacturing a controlled substance or attempting to manufacture a controlled substance unlawfully*,” as used in subsection (c)(1), means that the defendant, or a person for whose conduct the defendant is accountable under §1B1.3 (Relevant Conduct), completed the actions sufficient to constitute the offense of unlawfully manufacturing a controlled substance or attempting to manufacture a controlled substance unlawfully.
3. Subsection (b)(2) applies if the conduct for which the defendant is accountable under §1B1.3 (Relevant Conduct) involved any discharge, emission, release, transportation, treatment, storage, or disposal violation covered by the Resource Conservation and Recovery Act, 42 U.S.C. § 6928(d), the Federal Water Pollution Control Act, 33 U.S.C. § 1319(c), the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. § 9603(b), and 49 U.S.C. § 5124 (relating

§2D1.13

to violations of laws and regulations enforced by the Department of Transportation with respect to the transportation of hazardous material). In some cases, the enhancement under subsection (b)(2) may not adequately account for the seriousness of the environmental harm or other threat to public health or safety (including the health or safety of law enforcement and cleanup personnel). In such cases, an upward departure may be warranted. Additionally, any costs of environmental cleanup and harm to persons or property should be considered by the court in determining the amount of restitution under §5E1.1 (Restitution) and in fashioning appropriate conditions of supervision under §§5B1.3 (Conditions of Probation) and 5D1.3 (Conditions of Supervised Release).

4. **Application of Subsection (b)(3).**—For purposes of subsection (b)(3), “*mass-marketing by means of an interactive computer service*” means the solicitation, by means of an interactive computer service, of a large number of persons to induce those persons to purchase a controlled substance. For example, subsection (b)(3) would apply to a defendant who operated a web site to promote the sale of prohibited flasks but would not apply to conspirators who use an interactive computer service only to communicate with one another in furtherance of the offense. “*Interactive computer service*”, for purposes of subsection (b)(3) and this note, has the meaning given that term in section 230(e)(2) of the Communications Act of 1934 (47 U.S.C. § 230(f)(2)).

- (a) Base Offense Level:
 - (1) **8**, if the substance is heroin or any Schedule I or II opiate, an analogue of these, or cocaine base; or

Commentary

Statutory Provision: 21 U.S.C. § 844(a). For additional statutory provision(s), see Appendix A (Statutory Index).

Application Note:

1. The typical case addressed by this guideline involves possession of a controlled substance by the defendant for the defendant's own consumption. Where the circumstances establish intended consumption by a person other than the defendant, an upward departure may be warranted.

Background: Mandatory (statutory) minimum penalties for several categories of cases, ranging from fifteen days' to three years' imprisonment, are set forth in 21 U.S.C. § 844(a). When a mandatory minimum penalty exceeds the guideline range, the mandatory minimum becomes the guideline sentence. See §5G1.1(b). Note, however, that 18 U.S.C. § 3553(f) provides an exception to the applicability of mandatory minimum sentences in certain cases. Commentary

Statutory Provision: 18 U.S.C. § 342.

Background: This section implements the direction to the Commission in section 6482 of the Anti-Drug Abuse Act of 1988. Offenses covered by this guideline may vary widely with regard to harm and risk of harm. The offense levels assume that the offense involved the operation of a common carrier carrying a number of passengers, *e.g.*, a bus. If no or only a few passengers were placed at risk, a downward departure may be warranted. If the offense resulted in the death or serious bodily injury of a large number of persons, such that the resulting offense level under subsection (b) would not adequately reflect the seriousness of the offense, an upward departure may be warranted.
