1 Of the 76,478 cases, the Commission received complete guideline application information for 67,894. Of these, six cases were excluded from the calculations due to missing Chapter Three adjustment information on commission of offense while on release and false registration of domain name. One additional case was excluded due to missing Chapter Three adjustment information on vulnerable victim, official victim, restraint of victim, terrorism, aggravating role, mitigating role, abuse of position, use of minor, use of body armor, obstruction of justice, and reckless endangerment. Descriptions of each guideline adjustment can be found in USSG Chapter Three.

2 When an offender uses computer encryption during the commission of an offense or to avoid detection, it may result in the application of the Obstruction of Justice adjustment. This year zero cases involved encryption or scrambling technology.
