Of the 61,678 cases, in 2,108 the sentence was a variance above the guideline range. Due to an inability to calculate the extent of departure for cases with a sentence of life, four sentenced individuals were excluded from this table. Also, 31 individuals were excluded due to several logical criteria. Sentences greater than 470 months and probation were included in the sentence average computations as 470 months and zero months, respectively. The information in this table includes conditions of confinement as described in USSG §5C1.1. Descriptions of variables used in this table are provided in Appendix A.
