U.S. Sentencing Commission Compassionate Release Data Report

Fiscal Year 2023, 2nd Quarter (October 1, 2022, through March 31, 2023)

Introduction

As part of its ongoing mission, the United States Sentencing Commission provides Congress, the judiciary, the executive branch, and the general public with data extracted from and based on sentencing documents submitted by courts to the Commission.¹ Data is reported on an annual basis in the Commission's *Annual Report* and *Sourcebook of Federal Sentencing Statistics*.²

The Commission also reports preliminary data for an ongoing fiscal year in order to provide real-time analysis of sentencing practices in the federal courts. Since 2005, the Commission has published a series of quarterly reports that are similar in format and methodology to tables and figures produced in the *Sourcebook of Federal Sentencing Statistics*. The quarterly reports contain cumulative data for the ongoing fiscal year (*i.e.*, data from the start of the fiscal year through the most current quarter). From time to time the Commission also reports data regarding other sentencing trends, such as resentencings or other modifications of sentences previously imposed.

Section 3582(c)(1)(A) of title 18, United States Code, provides courts with the authority to reduce a term of imprisonment after it has been imposed in specific circumstances. One of the circumstances provided in the statute is that "extraordinary and compelling reasons" warrant such a reduction. Motions asserting that reason are commonly referred to as "compassionate release" motions. When considering any motion under section 3582(c)(1)(A), courts are also required to consider the factors set forth in section 3553(a) of title 18 and to find that any reduction "is consistent with applicable policy statements issued by the Sentencing Commission."

Before December 2018, courts were authorized to consider motions under section 3582(c)(1)(A) only if they were filed by the Director of the Bureau of Prisons. In December 2018, Congress amended that portion of section 3582 to authorize courts to also consider motions filed by offenders, in certain circumstances.⁴

¹ In each federal felony or Class A misdemeanor case, sentencing courts are required to submit the following documents to the Commission: the Judgment and Commitment Order, the Statement of Reasons, the plea agreement (if applicable), the indictment or other charging document, and the Presentence Report. *See* 28 U.S.C. § 994(w).

² Electronic copies of the 1995-2022 ANNUAL REPORT and SOURCEBOOK OF FEDERAL SENTENCING STATISTICS are available at the Commission's website at www.ussc.gov.

³ U.S. SENTENCING COMM'N, Guidelines Manual §1B1.13 (Nov. 2021) [hereinafter USSG].

⁴ The First Step Act of 2018 (Pub. L. No. 115-391 (2018)) went into effect on December 21, 2018. Section 603 of the Act amended section 3582(c)(1)(A) of title 18 to authorize "defendants" (*i.e.*, offenders) to file a motion for compassionate release "after the defendant has fully exhausted all administrative rights to appeal a failure of the Bureau of Prisons to bring a motion on the defendant's behalf or the lapse of 30 days from the receipt of such a request by the warden of the defendant's facility, whichever is earlier."

With the advent of the COVID-19 pandemic,⁵ the courts received thousands of compassionate release motions, most filed by offenders. Data on compassionate release motions decided by the courts from fiscal year 2020 to fiscal year 2022 is available at the Commission's website at www.ussc.gov.

This report provides an analysis of the compassionate release motions filed with the courts and decided during the first two quarters of fiscal year 2023. Table 1 and Figure 1, combine this data with data on compassionate release motions from prior fiscal years to facilitate trend analyses. The data in this report is limited to motions for which the Commission received or obtained court documentation and completed its analysis by May 3, 2023.

⁵ On January 31, 2020, the Secretary of Health and Human Services declared the coronavirus (COVID-19) a public health emergency as of January 27. The World Health Organization declared the COVID-19 outbreak a global pandemic on March 11, 2020. President Trump declared a national emergency concerning COVID-19 on March 13, 2020, retroactive to March 1, 2020. In 2023, Congress later passed a law ending the national emergency, which became effective on April 10, 2023. Pub. L. No. 118-3. President Biden declared an end to the public health emergency effective May 11, 2023.
