U.S. Sentencing Commission Compassionate Release Data Report

Preliminary Fiscal Year 2025 Cumulative Data through 3rd Quarter (October 1, 2024, through June 30, 2025)

Introduction

As part of its ongoing mission, the United States Sentencing Commission provides Congress, the judiciary, the executive branch, and the general public with data extracted from and based on sentencing documents submitted by courts to the Commission.¹ Data is reported on an annual basis in the Commission's *Annual Report* and *Sourcebook of Federal Sentencing Statistics*.²

The Commission also reports preliminary data for an ongoing fiscal year in order to provide real-time analysis of sentencing practices in the federal courts. Since 2005, the Commission has published a series of quarterly reports that are similar in format and methodology to tables and figures produced in the *Sourcebook of Federal Sentencing Statistics*. The quarterly reports contain cumulative data for the ongoing fiscal year (*i.e.*, data from the start of the fiscal year through the most current quarter). From time to time the Commission also reports data regarding other sentencing trends, such as resentencings or other modifications of sentences previously imposed.

Section 3582(c)(1)(A) of title 18, United States Code, provides courts with the authority to reduce a term of imprisonment after it has been imposed in specific circumstances. One of the circumstances provided in the statute is that "extraordinary and compelling reasons" warrant such a reduction. Motions asserting that reason are commonly referred to as "compassionate release" motions. When considering any motion under section 3582(c)(1)(A), courts are also required to consider the factors set forth in section 3553(a) of title 18 and to find that any reduction "is consistent with applicable policy statements issued by the Sentencing Commission."

Before December 2018, courts were authorized to consider motions under section 3582(c)(1)(A) only if they were filed by the Director of the Bureau of Prisons. In December 2018, Congress amended that portion of section 3582 to authorize courts to also consider motions filed by sentenced individuals, in certain circumstances.⁴

¹ In each federal felony or Class A misdemeanor case, sentencing courts are required to submit the following documents to the Commission: the Judgment and Commitment Order, the Statement of Reasons, the plea agreement (if applicable), the indictment or other charging document, and the Presentence Report. *See* 28 U.S.C. § 994(w).

² Electronic copies of the 1995-2024 ANNUAL REPORT and SOURCEBOOK OF FEDERAL SENTENCING STATISTICS are available at the Commission's website at www.ussc.gov.

³ U.S. SENTENCING COMM'N, Guidelines Manual §1B1.13 (Nov. 2021) [hereinafter USSG].

⁴ The First Step Act of 2018 (Pub. L. No. 115-391 (2018)) went into effect on December 21, 2018. Section 603 of the Act amended section 3582(c)(1)(A) of title 18 to authorize "defendants" (*i.e.*, sentenced individuals) to file a motion for compassionate release "after the defendant has fully exhausted all administrative rights to appeal a failure of the Bureau of Prisons to bring a motion on the defendant's behalf or the lapse of 30 days from the receipt of such a request by the warden of the defendant's facility, whichever is earlier."

With the advent of the COVID-19 pandemic,⁵ the courts received thousands of compassionate release motions, most filed by sentenced individuals. Data on compassionate release motions decided by the courts from fiscal year 2020 to fiscal year 2024 is available at the Commission's website at www.ussc.gov.

In 2023, the Commission revised its policy statement regarding reductions in a term of imprisonment under 18 U.S.C. §3582(c)(1)(A).⁶ Amendment 814⁷ to the *Guidelines Manual* conformed the policy statement to the changes made by the First Step Act of 2018 authorizing sentenced individuals to file motions directly with the court. It also moved two application notes (Notes 2 and 3) from the prior version of the policy statement into the body of the policy statement as new subsections (e) and (d). Finally, the amendment expanded the list of specified extraordinary and compelling reasons for a sentence reduction to better account for and reflect the plain language of section 3582(c)(1)(A), its legislative history, and decisions by courts made in the absence of a binding policy statement.

This report provides an analysis of the compassionate release motions decided by the courts during the first three quarters of fiscal year 2025. Table 1 and Figure 1, combine this data with data on compassionate release motions from prior fiscal years to facilitate trend analyses. The data in this report is limited to motions for which the Commission received or obtained court documentation and completed its analysis by July 18, 2025.

⁵ On January 31, 2020, the Secretary of Health and Human Services declared the coronavirus (COVID-19) a public health emergency as of January 27. The World Health Organization declared the COVID-19 outbreak a global pandemic on March 11, 2020. President Trump declared a national emergency concerning COVID-19 on March 13, 2020, retroactive to March 1, 2020. In 2023, Congress later passed a law ending the national emergency, which became effective on April 10, 2023. Pub. L. No. 118-3. President Biden declared an end to the public health emergency effective May 11, 2023.

⁶ USSG §1B1.13.

⁷ Amendment 814 became effective on November 1, 2023.
