#### **U.S. Sentencing Commission Final Quarterly Data Report**

Fiscal Year 2015

#### Introduction

As part of its ongoing mission, the United States Sentencing Commission provides Congress, the judiciary, the executive branch, and the general public with data extracted and analyzed from sentencing documents submitted by courts to the Commission.<sup>1</sup> Data is reported on an annual basis in the Commission's *Annual Report* and *Sourcebook of Federal Sentencing Statistics*.<sup>2</sup> After the Supreme Court's decision in *United States v. Booker* on January 12, 2005, which rendered the sentencing guidelines advisory instead of mandatory, many people expressed an interest in knowing what changes, if any, in federal sentencing practices would result. The Commission responded by reconfiguring its data collection, analysis, and reporting efforts to provide real-time data reporting from the submitted documents.

The Commission first reported data on February 10, 2005 to Congress<sup>3</sup> and began reporting data approximately monthly shortly thereafter. The types of data reported increased over time to accommodate various requests for the additional information. In March 2006, the Commission released a comprehensive report, *Final Report on the Impact of United States v. Booker on Federal Sentencing*, <sup>4</sup> based on cases sentenced one year since the *Booker* decision. Because the report included additional analyses that had not been included in the monthly reports, not all the data presented in the report was comparable with the monthly releases, which made comparing data over time difficult.

In an effort to standardize the Commission's post-Booker analyses and to facilitate the identification of emerging trends going forward, the Commission began generating a new set of tables and charts on a quarterly basis for public release on the Commission's website beginning with the third quarter of fiscal year 2006. These quarterly data reports are similar in format and methodology to tables and figures produced in the Sourcebook or in the Commission's Booker report. Some of the figures include data from fiscal years before the Booker decision to facilitate analysis of sentencing trends over time. Other figures and all of the tables contain cumulative data (i.e., data from the start of the fiscal year through the most current quarter). Appendix B cross-references the quarterly table numbers and figure letters with the corresponding number or letter in the Sourcebook (if it exists in the Sourcebook) so that the quarterly data can be

<sup>&</sup>lt;sup>1</sup> In each felony or Class A misdemeanor case sentenced in federal court, sentencing courts are required to submit the following documents to the Commission: the Judgment and Commitment Order, the Statement of Reasons, the plea agreement (if applicable), the indictment or other charging document, and the presentence report. *See* 28 U.S.C. § 994(w).

<sup>&</sup>lt;sup>2</sup> Electronic copies of the 1995-2015 *Annual Report* and *Sourcebook of Federal Sentencing Statistics* are available at the Commission's website, <u>www.ussc.gov</u>.

Hinojosa, chair of the United States Sentencing Commission, before the Subcommittee on Crime, Terrorism, and Homeland Security, Committee on the Judiciary, United States House of Representatives, February 10, 2005.

<sup>&</sup>lt;sup>4</sup> See <a href="www.ussc.gov/bf.htm">www.ussc.gov/bf.htm</a> for an electronic copy of the Commission's Final Report on the Impact of <a href="United States">United States</a> v. Booker on Federal Sentencing.

<sup>&</sup>lt;sup>5</sup> The Commission has tried to maintain the same table numbers and figure letters over the past several years but, due to slight differences in reporting categories between pre- and post-*Booker* time periods, the numbers and letters may not correspond exactly over time. Please refer to the table of contents for each of the prior *Sourcebook* years to determine the corresponding table number or figure letter.

<sup>&</sup>lt;sup>1</sup> This table reflects the 71,003 cases sentenced in Fiscal Year 2015. Of these, 2,733 cases were excluded because information was missing from the submitted documents that prevented the comparison of the sentence and the guideline range. Descriptions of variables used in this table are provided in Appendix A.

<sup>&</sup>lt;sup>2</sup> All cases with departures in which the court did not indicate as a reason either *United States v. Booker*, 18 U.S.C. § 3553, or a factor or reason specifically prohibited in the provisions, policy statements, or commentary of the *Guidelines Manual*.

<sup>&</sup>lt;sup>3</sup> All cases sentenced outside of the guideline range in which the court indicated both a departure (see footnote 2) and a reference to either *United States v. Booker*, 18 U.S.C. § 3553, or related factors as a reason for sentencing outside of the guideline system.

<sup>&</sup>lt;sup>4</sup> All cases sentenced outside of the guideline range in which no departure was indicated and in which the court cited *United States v. Booker*, 18 U.S.C. § 3553, or related factors as one of the reasons for sentencing outside of the guideline system.

<sup>&</sup>lt;sup>5</sup> All cases sentenced outside of the guideline range that could not be classified into any of the three previous outside of the range categories. This category includes cases in which no reason was provided for a sentence outside of the guideline range.

<sup>&</sup>lt;sup>6</sup> Cases in which a reason for the sentence indicated that the prosecution initiated, proposed, or stipulated to a sentence outside of the guideline range, either pursuant to a plea agreement or as part of a non-plea negotiation with the defendant.

Of the 71,003 cases, 2,733 were excluded because information was missing from the submitted documents that prevented the comparison of the sentence and the guideline range. The information needed to determine the relationship between the sentence imposed and the guideline range was missing in five percent or more of the cases received from: Arizona (32.4%), Western Louisiana (13.0%), Eastern North Carolina (13.0%), Southern West Virginia (7.4%), and Middle Georgia (5.8%). Descriptions of variables used in this table are provided in Appendix A.

<sup>&</sup>lt;sup>1</sup> Cases included in this category are those in which the court submitted Form AO 245B (Revision 06/05, 09/08, or 09/11) to the Commission. Only cases in which all required pages of this form were submitted with no deletions or substantive changes are included in this category. Form AO 245B was approved by the Executive Committee of the Judicial Conference of the United States in June 2005.

<sup>&</sup>lt;sup>2</sup> Cases are included in this category for one or more of the following reasons: one or more of the required pages of Form AO 245B were missing; deletions or substantive changes were made in Form AO 245B that prevented the USSC from collecting the information required to be submitted by 18 U.S.C. §3553(c); an outdated version of Form AO 245B was submitted; or a unique, district created, or modified form was submitted.

## **Appendix A Descriptions of Datafiles and Variables**

#### Introduction

Federal courts are required to forward to the Commission sentencing documentation on all offenders sentenced under the Sentencing Reform Act of 1984 (SRA), except in cases that solely involve petty offenses. Standard information on each case is extracted from sentencing documents received and computerized for analysis.

Given the nature of the datafile and reporting requirements, the following are not included: cases initiated but for which no convictions were obtained, offenders convicted for whom no sentences were yet issued, and offenders sentenced but for whom no sentencing documents were submitted to the Commission. Because the Commission collects information only on cases sentenced under the guidelines, information on cases sentenced under prior law (pre-guidelines) during the current fiscal year is not available in this dataset. When cases are sentenced under both prior law and the guidelines, only the guideline relevant information is coded in the dataset. Cases in which a sentence of death was imposed also are not available in this dataset for this same reason.

Note that for all tables, total percentages may not add up to exactly 100 percent due to rounding.

#### Variables

The following section describes the variables used in this report.

#### Above Guideline Range with *Booker/18 U.S.C. § 3553*

Above Guideline Range with Booker/18 U.S.C. § 3553 consists of cases with a sentence above the guideline range with no departure indicated and that cite U.S. v. Booker, 18 U.S.C. § 3553, or related factors as one of the reasons for sentencing outside of the guideline system.

#### Age

The *Age* of the offender on the day of sentencing is calculated using the date of sentencing as reported in the Judgment and Commitment Order and the offender's date of birth as reported either in the Presentence Report or in the case submission information provided by the court when submitting the case to the Commission.

#### All Remaining Cases Above Guideline Range

All Remaining Cases Above Guideline Range consists of cases sentenced above the guideline range that cannot be classified into any of the other three above the range categories. This category includes, for example, cases in which no reason is provided for a sentence above the guideline range.

#### All Remaining Cases Below Guideline Range

All Remaining Cases Below Guideline Range consists of cases sentenced below the guideline range that cannot be classified into any of the other three below the range categories. This category includes, for example, cases in which no reason is provided for a sentence below the guideline range.

#### Below Guideline Range with *Booker*/18 U.S.C. § 3553

Below Guideline Range with Booker/18 U.S.C. § 3553 consists of cases with a sentence below the guideline range with no departure indicated and that cite U.S. v. Booker, 18 U.S.C. § 3553, or related factors as one of the reasons for sentencing outside of the guideline system.

#### Circuit

Information on judicial *Circuit* is generated by computer using the location of the judicial district in which the offender was sentenced.

#### **Citizenship Status**

Information on the *Citizenship Status* of offenders is obtained from the presentence report. Offenders are categorized as one of the following: "U.S. citizen," "resident alien," "illegal alien," "extradited alien," and "non-U.S. citizen, alien status unknown." The latter four categories are collapsed into the category of "non-U.S. citizen."

#### **Degree of Decrease**

Degree of Decrease is calculated based on the difference between the length of imprisonment (not including any months of alternative confinement as defined in USSG §5C1.1) and the guideline minimum for the following categories of below range cases: downward departure from guideline range, downward departure with Booker/18 U.S.C. § 3553, below guideline range with Booker/18 U.S.C. § 3553, all remaining cases below guideline range, USSG §5K1.1 substantial assistance cases, USSG §5K3.1 early disposition program cases, and other government sponsored cases. Life sentences and cases where the guideline minimum is zero months or life are all excluded from all degree of decrease calculations due to the logical difficulty in calculating a decrease from these values.

#### **Degree of Increase**

Degree of Increase is calculated based on the difference between the guideline maximum and the length of imprisonment (not including any months of alternative confinement as defined in USSG §5C1.1) for the following categories of above range cases: upward departure from guideline range, upward departure with Booker/18 U.S.C. § 3553, above guideline range with Booker/18 U.S.C. § 3553, all remaining cases above guideline range. Life sentences, sentences of probation, and cases where the guideline minimum is life are all excluded from all degree of increase calculations due to the logical difficulty in calculating an increase from these values.

#### District

Information on the judicial *District* in which sentencing occurred is obtained from the Judgment and Commitment Order.

#### **Document Submission Rates**

Five documents are represented in the document submission rate table: Judgment and Commitment Order (J&C), Presentence Report (PSR), Statement of Reasons (SOR), Indictment/Information (Ind), and Plea Agreements (Plea). The J&C and PSR generally are submitted in a standardized format. PSRs waived by the court are indicated in a separate column. Standardized forms for the Statement of Reasons are most frequently submitted; however, transcripts or partial transcripts from the sentencing hearing are also included as Statement of Reasons Received. Cases in which the Commission was unable to determine definitively whether the offender's guilty plea was entered pursuant to a written agreement are excluded from the Plea Agreement totals. The total requested documents received column is derived from adding the total number of received documents from the Judgment and Commitment Order (J&C), Presentence Report (PSR), Statement of Reasons (SOR), Indictment/Information (Ind), and Plea Agreements (Plea). The total requested documents not received column is derived from adding the total number of not received documents from the Judgment and Commitment Order (J&C), Presentence Report (PSR), Statement of Reasons (SOR), Indictment/Information (Ind), and Plea Agreements (Plea). Cases where the PSR is waived, there is no written plea agreement/trial, and where the Commission was unable to definitively determine whether the offender's guilty plea was entered pursuant to a written plea agreement are all excluded from the calculations for the total received documents column.

#### **Downward Departure From Guideline Range**

Downward Departure From Guideline Range consists of cases with departures below the guideline range that do not cite as a reason either U.S. v. Booker, 18 U.S.C. § 3553, or factors or reasons specifically prohibited in the provisions, policy statements, or commentary of the federal guidelines manual.

#### Downward Departures with Booker/18 U.S.C. § 3553

Downward Departures with Booker/18 U.S.C. § 3553 consists of cases with a sentence below the guideline range that include both a departure (see Downward Departure From Guideline Range) as well as a sentence outside the guideline system mentioning either U.S. v. Booker, 18 U.S.C. § 3553, or related factors as a reason for sentencing below the guideline range.

#### **Drug Offense Guideline**

*Drug Offense Guideline* information is obtained from the Presentence Report and is based on the guidelines in USSG Chapter Two, Part D. The six guidelines featured in the tables (USSG §2D1.1, §2D1.2, §2D1.5, §2D1.6, §2D1.8, and §2D2.1) represent the vast majority of drug cases.

#### **Drug Type**

Information on *Drug Type* is obtained from the Presentence Report, Judgment and Commitment Order or Plea Agreement. It is recorded only if at least one of the statutes of conviction recorded by the Commission is a title 21 U.S. Code offense or an offense under another title when the underlying conduct involves a controlled substance. Information about type of drug in the text and tables is derived from the primary drug type (*i.e.*, the type that produces the highest base offense level). The category *Marijuana* includes Hashish and Hashish oil. The category *Methamphetamine* includes pure (actual) methamphetamine, "ICE," methamphetamine mixture, and methamphetamine precursors sentenced under any drug guideline other than USSG §2D1.11 (for example ephedrine and pseudoephedrine). The category *Listed Chemicals* includes any chemicals listed under USSG §2D1.11. All drug types not listed separately in this report are collapsed into the "other" drug category.

#### Education

Information on education of the offender is obtained from the Presentence Report and is collapsed into general categories. Technical, military, and vocational training as well as course work at community colleges is included in the *Some College* category. A general equivalency degree (GED) is included in the *High School Graduate* category.

#### Gender

Gender of the defendant is obtained from the Presentence Report.

#### **Government Sponsored Below Range**

Government sponsorship of a below range sentence is determined by a yearly case review by USSC staff of both the reasons for the below range sentence and the coding by USSC staff of any indication of government sponsorship as indicated on the Statement of Reasons for below range cases. The SOR form has specific check-boxes to indicate the origins of the departure, but cases that do not use this form may also indicate in writing the origins of the departure. Additionally, all cases with one or more of the following reasons were classified as being sponsored by the government regardless of whether the SOR indicated sponsorship: pursuant to a plea agreement (binding, non-binding, or unknown), fast track, savings to the government, early plea, deportation, waiver of indictment and/or appeal, other government motion, global disposition, due to stipulations, facilitated early release of a material witness, joint recommendation, and large number of immigration cases. Note that because the USSC reviews the reasons on a yearly basis, this list might be modified slightly from year to year. Unless otherwise broken out in the table or chart, this category also includes cases with USSG §5K3.1 Early Disposition Program (EDP) departures and USSG §5K1.1 substantial assistance departures.

#### **Guideline Offenders Sentenced**

Each *Guideline Offender Sentenced* or case, as recorded by the USSC, involves a single sentencing event for a single offender. Multiple counts, and even multiple indictments, are considered a single sentencing event if sentenced at the same time by the same judge. A single offender may appear in more than one case if involved in more than one sentencing event during the fiscal year. Co-offenders in the same sentencing will each appear as separate cases.

#### **Guideline Sentencing Range**

The *Guideline Sentencing Range* is taken from the Statement of Reasons provided by the sentencing court. Alternatively, if the Statement of Reasons is missing, then the information is taken from the presentence report.

For tables in this report, unless otherwise indicated, the guideline sentencing range does not take into account applicable statutory restrictions on either the maximum or the minimum of the range; therefore, it may differ from the available range, which does take into account the statutory restrictions.

#### **Mode of Conviction**

Information on *Mode of Conviction* is obtained from the Judgment and Commitment Order. Offenders sentenced subsequent to a plea of guilty or *nolo contendere* are included in the *Plea* category. Offenders sentenced subsequent to a trial by judge or jury are included in the *Trial* category. Rare cases involving both a plea and a trial are included in the *Trial* category.

#### **Outside of the Range Attribution Categories**

All categories replicate the list of checkboxes available on the SOR Form. Not all checkbox categories are available in both the departure section and sentences outside the guideline system section on this form and multiple checkboxes may be indicated in a single case so that totals in a table may exceed the total number of cases. USSC uses these checkboxes in determining government sponsorship: all cases in which one of the pursuant to a plea agreement boxes is indicated are attributed to the government. Additionally cases where a USSG §5K1.1, USSG §5K3.1, or other government motion checkbox was indicated in the pursuant to a motion not in a plea agreement section are also attributed to one of the government sponsored categories. Additionally, other types of SOR forms may indicate sponsorship in writing, and these attributions are also included in the appropriate category.

#### **Position of Sentence**

The *Position of Sentence* describes within-range guideline sentences in terms of their relative positions within their applicable guideline ranges. Only cases with complete information from the Statement of Reasons are used for this table. The *Position of Sentence* is determined by dividing the available range in half. This allows a sentence to fall into one of five distinct categories: the guideline minimum; the exact midpoint of the range; the guideline maximum; the lower-half of the range (when not at the guideline minimum); and the upper-half of the range (when not at the guideline maximum). The "available range" is the guideline range with applicable statutory restrictions on either the maximum or the minimum of the range taken into account. (For cases in which guideline USSG §5C1.2 was applied, in accordance with the provisions of the guideline, the statutory restrictions on the minimum of the range are removed according to 18 U.S.C. § 3553(f).) In cases in which the sentence is located outside the available sentencing range, departure information is provided as reported by the sentencing court. Differences in the number and percentage of cases in each range quarter may differ from other tables presented in this report; this is due to the exclusion of any case missing both complete information from the Statement of Reasons and information on statutory minima and maxima.

#### **Primary Offense Category**

Information on *Primary Offense Category* is obtained from the Judgment and Commitment Order. The "primary" offense for the case is determined to be the offense applicable to the count of conviction with the highest statutory maximum. If two or more counts are found to have the same statutory maximum, "primary" offense is selected according to which count of conviction has the highest statutory minimum. Finally, in the event of a small number of cases still tied, the offense type that best represented the nature of the criminal behavior is chosen.

For convenience in analysis, a summary variable describing "primary offense category" is derived. This is generated by grouping similar primary offenses into a smaller set of categories. Note that the primary offense categories differ between the individual and organizational offender datafiles. Listed below are the offense types that are grouped into each of the primary offense categories used in the individual datafile tables for this report:

#### Race

Information on *Race* of the offender is obtained from the Presentence Report in separate categories of race and ethnicity (*White, Black, Native American or Alaskan Native, Asian or Pacific Islander, Multiracial, and "Other*"). Ethnicity data indicate whether an offender is of Hispanic origin. (For purposes of this report, offenders whose ethnic background is designated as Hispanic are represented as Hispanic in all tables regardless of racial background.) The *Other* category includes offenders of Native American, Alaskan Native, Asian or Pacific Islander, Multiracial, and "Other" origin.

#### **Sentence Length**

*Sentence Length* reports the mean and median terms of the sentence imposed in months. This information is obtained from the Judgment and Commitment Order. Sentence lengths expressed in days are rounded to the nearest month.

Probation sentences are included as zero months. Any portion of a sentence which is an alternative confinement as described in USSG §5C1.1 is included. Cases in which a sentence is imposed, but where the length is indeterminable, are excluded. However, sentences in cases where the court imposed a sentence of time served but did not report the amount of time that was served are included as zero months.

In cases where the court imposes a sentence of life imprisonment, a numeric value is necessary to include these cases in any sentence length analysis. Accordingly, life sentences are reported as 470 months, a length consistent with the average life expectancy of federal criminal offenders given the average age of federal offenders. Also, sentences of greater than 470 months are also reported as 470 months for some analyses. The footnote in the relevant tables and figures indicates when this occurs.

#### **Type of Guideline Sentence Imposed**

Using sentencing information obtained from the Judgment and Commitment Order, the *Total Receiving Prison* column includes the number of offenders sentenced (and percent of *Total Cases*) who received a commitment to the Bureau of Prisons. This column is the sum of cases in *Prison* and the *Prison/Community Split Sentence* categories.

The *Prison* category includes offenders sentenced to a term of imprisonment only, with no additional conditions of community confinement, home detention or intermittent confinement.

The *Prison/Community Split Sentence* category includes all cases in which offenders received prison and conditions of alternative confinement as defined in USSG §5C1.1.
