United States Sentencing Commission Quarterly Data Report

2nd Quarter Release Preliminary Fiscal Year 2025 Data Through March 31, 2025

Introduction

As part of its ongoing mission, the United States Sentencing Commission provides Congress, the judiciary, the executive branch, and the general public with data extracted and analyzed from sentencing documents submitted to the Commission by the courts. Data is reported on an annual basis in the Commission's *Annual Report* and *Sourcebook of Federal Sentencing Statistics*. Additional information on Commission data can be found through the Commission's "Interactive Data Analyzer" at https://ida.ussc.gov.

After the Supreme Court's decision in *United States v. Booker* on January 12, 2005, the Commission began reporting data on a quarterly basis in order to provide real-time data concerning the sentences imposed in the federal courts. The types of data reported increased over time to accommodate various requests for additional information. These reports were eventually standardized in a format that was largely unchanged through fiscal year 2015. In fiscal year 2016, the Commission revised the format for its *Quarterly Data Reports*, to include information not previously reported on a quarterly basis, and to make it easier to understand the data that was presented.

Beginning in 2018, the Commission again updated the way it presents quarterly data. Now, all analyses that involve a comparison of the sentence imposed relative to the guideline range that applied in the case are presented in a new way. Sentences are now grouped into two broad categories: Sentences Under the Guidelines Manual and Variances. The former category comprises all cases in which the sentence imposed was within the applicable guideline range or, if outside the range, where the court indicated that one or more of the departure reasons in the Commission's *Guidelines Manual* was a basis for the sentence. Variance cases are those where the sentence was outside the guideline range (either above or below) and where the court did not cite any guideline reason for the sentence. Data for important subgroups within these two categories are also reported.

This report reflects other methodological changes that began with fiscal year 2018 data. Principal among them is the way cases are assigned to a "type of crime" (previously called offense type). Beginning with fiscal year 2018, the guideline (or guidelines) that the court applied in determining the sentence largely determines the crime type category to which a case is assigned. Previously, the maximum penalty provided under the statute of conviction was used for this categorization. Also, the names of some of the crime type categories have been revised and some outdated categories have been removed from the tables and figures.

Additionally, cases involving the production of child pornography have been assigned to the sexual abuse crime type. Previously, these cases were assigned to the child pornography offense type in the *Sourcebook*. This change reflects the way in which the production of child

¹ In each federal felony or Class A misdemeanor case, sentencing courts are required to submit the following documents to the Commission: the Judgment and Commitment Order, the Statement of Reasons, the plea agreement (if applicable), the indictment or other charging document, and the presentence report. *See* 28 U.S.C. § 994(w).

² Electronic copies of the *Annual Report* and *Sourcebook of Federal Sentencing Statistics* for fiscal years 1995 through 2024 are available at the Commission's website, www.ussc.gov.

pornography is treated under the sentencing guidelines.

Another important methodological change is that sentences are capped at 470 months for all analyses. This is consistent with the Commission's long-standing practice of assigning a value of 470 months to any life imprisonment sentence.

Because of these methodological changes, direct comparisons between data for fiscal year 2018 and later years cannot always be made to data reported in the *Quarterly Data Reports* released before the Final Fiscal Year 2018 *Quarterly Data Report*.

The data in this report is preliminary and subject to change as the Commission collects, analyzes, and reports on data from additional cases throughout the fiscal year. When data for each new quarter is made available, the Commission will update the previous preliminary quarterly totals in the most recent release until the release of the final fiscal year data in the Commission's *Sourcebook*.³

³ Data for previous quarters may change for many reasons. For example, the courts have up to 30 days after the entry of judgment in a case to submit court documents to the Commission. The Commission both extracts information from the documents and screens cases through the quality control procedures and does not include any case in a data release unless it has been fully entered and reviewed.

¹ This table reflects the 30,526 cases sentenced on or after October 1, 2024, with court documentation cumulatively received, coded, and edited at the U.S. Sentencing Commission by May 27, 2025. Of these, 112 cases were excluded because information was missing from the submitted documents that prevented the comparison of the sentence and the guideline range. Descriptions of variables used in this table are provided in Appendix A.

² Cases in which the sentence imposed was above the applicable guideline range and for which the court cited a reason on Part V of the Statement of Reasons form, other than §5K1.1 or §5K3.1.

³ Cases in which the sentence imposed was below the applicable guideline range and for which the court cited a reason on Part V of the Statement of Reasons form, other than §5K1.1 or §5K3.1, and where the prosecution initiated, proposed, or stipulated to the sentence.

⁴ Cases in which the sentence imposed was below the applicable guideline range and for which the court cited a reason on Part V of the Statement of Reasons form, other than §5K1.1 or §5K3.1, and where the prosecution did not initiate, propose, or stipulate to the sentence.

⁵ Cases in which the sentence imposed was above the applicable guideline range and for which the court cited a reason on Part VI of the Statement of Reasons form.

⁶ Cases in which the sentence imposed was below the applicable guideline range and for which the court cited a reason on Part VI of the Statement of Reasons form, and where the prosecution initiated, proposed, or stipulated to the sentence.

⁷ Cases in which the sentence imposed was below the applicable guideline range and for which the court cited a reason on Part VI of the Statement of Reasons form, or where no reason was given, and where the prosecution did not initiate, propose, or stipulate to the sentence.

¹ Of the 30,526 cases, 1,361 were excluded due to one or both of the following reasons: information was missing from the submitted documents that prevented the comparison of the sentence and the guideline range (112) or missing guideline applied (1,344). Descriptions of variables used in this table are provided in Appendix A.

² In these cases, the sentenced individual was convicted of violating 18 U.S.C. § 1028A (Aggravated Identity Theft) as the only count or counts of conviction. The *Guidelines Manual* provides punishment for this type of offense under §2B1.6.

³ In these cases, the sentenced individual was convicted of violating 18 U.S.C. § 924(c) (Use of Firearm, Armor-Piercing Ammunition, or Explosives During or in Relation to Certain Crimes) as the only count or counts of conviction. The *Guidelines Manual* provides punishment for this type of offense under §2K2.4.

¹ Multiple attributions may be made on the Statement of Reasons (SOR). Therefore, the numbers reported in this table may exceed the number of total cases. For example, among SORs with an attribution, 5,676 cases indicated more than one attribution. Only sentenced individuals whose sentence is outside the guideline range are included in this table. Descriptions of variables used in this table are provided in Appendix A.

² For cases in which the court submitted a SOR form with a revision date of 11/15 or later, information for these categories was taken from Part V.C. of the SOR. For cases in which the court submitted the prior version of the SOR form, the information was taken from Part V.B. of the SOR form.

¹ Of the 30,526 cases, in 131 the sentence was an upward departure from the guideline range. Due to an inability to calculate the extent of departure for cases with a sentence of life, two cases were excluded from this table. Sentences greater than 470 months and probation were included in the sentence average computations as 470 months and zero months, respectively. The information in this table includes conditions of confinement as described in USSG §5C1.1. Descriptions of variables used in this table are provided in Appendix A.

¹ Of the 30,526 cases, in 1,246 the sentence was a variance above the guideline range. Due to an inability to calculate the extent of departure for cases with a sentence of life, four cases were excluded from this table. Also, eight cases were excluded due to several logical criteria. Sentences greater than 470 months and probation were included in the sentence average computations as 470 months and zero months, respectively. The information in this table includes conditions of confinement as described in USSG §5C1.1. Descriptions of variables used in this table are provided in Appendix A.

Appendix A Descriptions of Datafiles and Variables

Introduction

The Commission collects and analyzes data on federal sentences to support its various activities. As authorized by Congress, the Commission's numerous research responsibilities include (1) the establishment of a research and development program to serve as a clearinghouse and information center for the collection, preparation, and dissemination of information on federal sentencing practices; (2) the publication of data concerning the sentencing process; (3) the systematic collection and dissemination of information concerning sentences actually imposed and the relationship of such sentences to the factors set forth in section 3553(a) of title 18, United States Code; and (4) the systematic collection and dissemination of information regarding the effectiveness of sentences imposed.¹

The Commission maintains a comprehensive, computerized data collection system which forms the basis for its clearinghouse of federal sentencing information and which contributes to the agency's research mission.

Pursuant to 28 U.S.C. § 994(w), the chief judge of each district is required to ensure that within 30 days of entry of judgment in a criminal case, the sentencing court submits a report of sentence to the Commission that includes (1) the judgment and commitment order; (2) the written statement of reasons; (3) any plea agreement; (4) the indictment or other charging document; (5) the presentence report; and (6) any other information the Commission requests. Information on minor and petty offenses are not reported to the Commission as the sentencing guidelines do not apply in those cases.² Cases in which a sentence of death was imposed also are not available in this dataset for this same reason.³

Standard information on each case is extracted from sentencing documents received and computerized for analysis. Note that for all tables, total percentages may not add up to exactly 100 percent due to rounding.

Variables

The following section describes the variables used in this report.

Attribution Category for Sentences Outside the Range

All categories replicate the list of checkboxes available on the Statement of Reasons form. Not all checkbox categories are available in both the departure section and sentences outside the guideline system section on this form and multiple checkboxes may be indicated in a single case so that totals in a table may exceed the total number of cases. The Commission uses these checkboxes in determining government sponsorship: all cases in which one of the pursuant to a plea agreement boxes is indicated are attributed to the government. Additionally, other types of Statement of Reasons forms may indicate sponsorship in writing, and these attributions are also included in the appropriate category.

¹ 28 U.S.C. §§ 995(a)(12) and (14) – (16).

² See U.S. SENTENCING COMM'N, Guidelines Manual, §1B1.9 (Nov. 2023).

³ See 18 U.S.C. §§ 3591-99 for the sentencing procedures that apply in death penalty cases.

Circuit

Information on judicial *Circuit* is generated using the location of the judicial district in which the person was sentenced.

Citizenship Status

Information on the *Citizenship Status* of sentenced individuals is obtained from the Presentence Report. Persons are categorized as one of the following: "U.S. citizen," "resident alien," "illegal alien," "extradited alien," or "non-U.S. citizen, alien status unknown." The latter four categories are collapsed into the category of "non-U.S. citizen."

District

Information on the judicial *District* in which sentencing occurred is obtained from the Judgment and Commitment Order.

Downward Departure

Downward Departure consists of cases in which the sentence imposed was below the applicable guideline range and for which the court cited a reason on Part V of the Statement of Reasons form (Departures Pursuant to the Guidelines Manual). In these cases, the court may also have cited 18 U.S.C. § 3553 or factors or reasons specifically prohibited in the provisions, policy statements, or commentary of the sentencing guidelines as additional reasons. This category includes departures that result from government motions as well as from motions by the parties.

Downward Variance

Downward Variance consists of cases in which the sentence imposed was below the applicable guideline range and for which the court cited a reason on Part VI of the Statement of Reasons form (Court Determination for a Variance). This category includes variances which result from government motions as well as from motions by the defendant.

Extent of Decrease

Extent of Decrease is calculated based on the difference between the sentence length (including any months of alternative confinement as defined in USSG §5C1.1) and the guideline minimum (including any statutory trumps) for below range cases. Life imprisonment sentences and cases where the guideline minimum is zero months or life are excluded from all extent of decrease calculations due to the logical difficulty in calculating a decrease from these values. High values of the sentence are capped at 470 months for analytical purposes.

Extent of Increase

Extent of Increase is calculated based on the difference between the guideline maximum (including any statutory trumps) and the sentence length (including any months of alternative confinement as defined in USSG §5C1.1) for above range cases. Life sentences and cases where the guideline minimum is life are excluded from all extent of increase calculations due to the logical difficulty in calculating an increase from these values. High values of the sentence are capped at 470 months for analytical purposes.

Gender

Gender is obtained from the Presentence Report.

Government Motion (Variance)

Government Motion (Variance) consists of cases in which the sentence imposed was below the applicable guideline range pursuant to a government motion and for which the court cited a reason on Part VI of the Statement of Reasons (SOR) form (Court Determination for a Variance). These cases are determined by a yearly case review by Commission staff of both the reasons for the below range sentence and the coding by Commission staff of any indication of government sponsorship as indicated on the Statement of Reasons for below range cases. The SOR form has specific checkboxes to indicate the origins of the variance, but cases that do not use this form may also indicate in writing the origins of the variance. Additionally, all cases with one or more of the following reasons were classified as being sponsored by the government regardless of whether the SOR indicated sponsorship: pursuant to a plea agreement

(binding, non-binding, or unknown), fast track, savings to the government, early plea, waiver of indictment and/or appeal, other government motion, global disposition, due to stipulations, facilitated early release of a material witness, joint recommendation, and a large number of immigration cases. This category does not include cases with USSG §5K1.1 Substantial Assistance departures or USSG §5K3.1 Early Disposition Program (EDP) departures.

Guideline Sentencing Range

The *Guideline Sentencing Range* is taken from the Statement of Reasons provided by the sentencing court. Alternatively, if the Statement of Reasons is missing, then the information is taken from the Presentence Report.

For tables in this report, unless otherwise indicated, the guideline sentencing range does not take into account applicable statutory restrictions on either the maximum or the minimum of the range; therefore, it may differ from the available range, which does take into account the statutory restrictions.

Non-Government Departure

Non-Government Departure consists of cases in which the sentence imposed was outside the applicable guideline range and for which the court cited a reason on Part V of the Statement of Reasons form (Departures Pursuant to the Guidelines Manual) other than USSG §5K1.1 or USSG §5K3.1, and where the government did not initiate, propose, or stipulate to the sentence.

Non-Government Variance

Non-Government Variance consists of cases in which the sentence imposed was outside the applicable guideline range and for which the court cited a reason on Part VI of the Statement of Reasons form (Court Determination for a Variance), and where the government did not initiate, propose, or stipulate to the sentence.

Other Government Motion (Downward Departure)

Other Government Motion is determined by a yearly case review by Commission staff of both the reasons for the below range sentence and the coding by Commission staff of any indication of government sponsorship as indicated on the Statement of Reasons for below range cases. The SOR form has specific checkboxes to indicate the origins of the departure, but cases that do not use this form may also indicate in writing the origins of the departure. Additionally, all cases with one or more of the following reasons were classified as being sponsored by the government regardless of whether the SOR indicated sponsorship: pursuant to a plea agreement (binding, non-binding, or unknown), fast track, savings to the government, early plea, waiver of indictment and/or appeal, other government motion, global disposition, due to stipulations, facilitated early release of a material witness, joint recommendation, and a large number of immigration cases. This category does not include cases with USSG §5K1.1 Substantial Assistance departures or USSG §5K3.1 Early Disposition Program (EDP) departures.

Primary Drug Type

Information on *Primary Drug Type* is obtained from the Presentence Report, Judgment and Commitment Order, or Plea Agreement. It is recorded only if at least one of the statutes of conviction recorded by the Commission is an offense under title 21 of the United States Code or an offense under another title when the underlying conduct involves a controlled substance. Information about type of drug in the text and tables is derived from the primary drug type (i.e., the type that produces the highest base offense level).

The category *Fentanyl* includes cases in which the drug involved is Fentanyl (N-phenyl-N-[1-(2-phenylethyl)-4-piperidinyl] Propanamide) and cases in which the court determined the substance involved to be a Fentanyl analogue, as defined in the *Guidelines Manual*. The category *Marijuana* includes Hashish and Hashish oil. The category *Methamphetamine* includes pure (actual) methamphetamine, "Ice," methamphetamine mixture, and methamphetamine precursors sentenced under any drug trafficking guideline other than USSG §2D1.11 (for example ephedrine and pseudoephedrine). All drug types not listed separately in this report are collapsed into the "Other" drug category.

Primary Guideline

When more than one sentencing guideline is applied in a case, the *Primary Guideline* is the guideline that has the highest adjusted offense level (this includes the Base Offense Level, all applicable Specific Offense Characteristics, and Chapter Three Adjustments prior to the application of Multiple Count Units).

Race

Information on *Race* is obtained from the Presentence Report in separate categories of race and ethnicity (*White, Black, Native American or Alaskan Native, Asian or Pacific Islander, Multiracial,* and "*Other*"). Ethnicity data indicates whether a sentenced individual is of Hispanic origin. For purposes of this report, individuals whose ethnic background is designated as Hispanic are represented as Hispanic in all tables regardless of racial background. The *Other* race category includes individuals of Native American or Alaskan Native, Asian or Pacific Islander, Multiracial, and "Other" origin.

Sentence Imposed or Sentence Length

Sentence Imposed or Sentence Length reports the mean and median terms of the sentence imposed in months. It also includes any time served amounts and imprisonment under USSG §5G1.3. This information is obtained from the Judgment and Commitment Order. Mean and median sentence lengths are rounded to the nearest month. Probation sentences are included as zero months. Any portion of a sentence that is an alternative confinement as described in USSG §5C1.1 is included.

Cases in which a sentence is imposed, but where the length is indeterminable, are excluded. When sentences are expressed as "time served" on the Judgement and Commitment Order, Commission staff uses the dates in federal custody to determine the length of time served when an individual has been in custody the entire time. If the individual has been in and out of custody, or the start date is unclear/missing, then the Commission assigns a value of one day as a minimal time served amount for these cases. In cases where the court imposes a sentence of life imprisonment, a numeric value is necessary to include these cases in any sentence length analysis. Accordingly, life sentences are reported as 470 months, a length consistent with the average life expectancy of individuals sentenced for federal offenses given the average age of those person. Sentences of greater than 470 months are also reported as 470 months. The footnote in the relevant tables and figures indicates when this occurs.

Sentenced Individuals

Each Sentenced Individual or case, as recorded by the Commission, involves a single sentencing event for a single person. Multiple counts of conviction, including counts of conviction charged on multiple indictments, are considered a single sentencing event if a single sentence was imposed for the counts on the same day at the same time by the same judge. An individual may account for more than one case if the person was involved in more than one sentencing event during the fiscal year. Data on co-defendants in the same sentencing will appear as separate cases.

Sentence Type

Using sentencing information obtained from the Judgment and Commitment Order, the *Total Receiving Imprisonment* category includes the number of individuals sentenced (and percent of *Total Cases*) who received a commitment to the Bureau of Prisons. This category is the sum of cases in *Prison Only* and the *Prison and Alternatives* categories.

The *Total Receiving Probation* category includes the number of individuals sentenced (and the percent of *Total Cases*) who received a term of probation with or without a condition of community confinement, intermittent confinement, or home detention. This category is the sum of *Probation Only* and *Probation and Alternatives* categories.

The *Prison Only* category includes individuals sentenced to a term of imprisonment only, with no additional conditions of community confinement, home detention or intermittent confinement.

The *Prison and Alternatives* category includes all cases in which individuals received prison and conditions of alternative confinement as defined in USSG §5C1.1. This category includes, but is not

limited to, Zone A, Zone B, or Zone C cases receiving prison with additional conditions of a term of community confinement, home detention, or intermittent confinement.

The *Probation Only* category includes the number of individuals who received a term of probation without a condition of community confinement, intermittent confinement, or home detention.

The *Probation and Alternatives* category includes the number of individuals who received a term of probation with a condition of community confinement, intermittent confinement, or home detention.

The *Fine Only* category includes the number of individuals who received no prison, no probation, and no time of alternative confinement as defined in USSG §5C1.1. Most of these sentenced individuals received a fine and/or a special assessment.

Sentences Under the Guidelines Manual

This category includes individuals whose sentences are determined to be either within the guideline range or outside the guideline range and for which the court cited a reason on Part V of the Statement of Reasons form (Departures Pursuant to the Guidelines Manual). In these cases, the court may also have cited 18 U.S.C. § 3553 or factors or reasons specifically prohibited in the provisions, policy statements, or commentary of the sentencing guidelines as additional reasons. This category includes departures which result from government motions as well as from motions by the sentenced individual.

Type of Crime

Information on *Type of Crime* is obtained from the primary guideline detailed in the Presentence Report. If the primary guideline is an "attempt/conspiracy" guideline such as USSG §2X1.1, then the underlying guideline is used to determine the type of crime category. If there is no primary guideline provided, then information about the type of crime category is obtained from the statutes of conviction listed on the Judgment and Commitment Order. When the "type of crime" for the case is determined from the statutes of conviction, the offense applicable to the count of conviction with the highest statutory maximum becomes the "type of crime." If two or more counts are found to have the same statutory maximum, the "type of crime" is selected according to which count of conviction has the highest statutory minimum. Finally, in the event of a small number of cases still tied, the "type of crime" that best represented the nature of the criminal behavior is chosen. For convenience in analysis, a summary variable describing "type of crime" is derived. This is generated by grouping similar primary offenses into a smaller set of categories. Note that the crime categories differ between the individual and organizational datafiles. Listed below are the type of crimes that are grouped into each of the crime categories used in the individual datafile tables for this report:

Administration of Justice includes obstructing or impeding officers, contempt, obstruction of justice, perjury or subornation of perjury, bribery of a witness, impersonation, failure to appear by defendant, failure to appear by material witness, commission of offense while on release, payment of witness, and misprision of a felony This category includes persons sentenced under §§2A2.4, 2J1.1, 2J1.2, 2J1.3, 2J1.4, 2J1.6, 2J1.9, and 2X4.1 of the *Guidelines Manual*.

In addition, this category includes persons sentenced under §\$2X1.1, 2X2.1, 2X3.1, 2X6.1, and 2X7.2 of the Guidelines Manual if no underlying guideline was provided.

Upward Departure

Upward Departure consists of cases in which the sentence imposed was above the applicable guideline range and for which the court cited a reason on Part V of the Statement of Reasons form (Departures Pursuant to the Guidelines Manual). In these cases, the court may also have cited 18 U.S.C. § 3553 or factors or reasons specifically prohibited in the provisions, policy statements, or commentary of the sentencing guidelines as additional reasons. This category includes departures which result from government motions as well as from motions by the parties.

Upward Variance

Upward Variance consists of cases in which the sentence imposed was above the applicable guideline range and for which the court cited a reason on Part VI of the Statement of Reasons form (Court Determination for a Variance). This category includes variances which result from government motions as well as from motions by the defendant.

Within Guideline Range

Cases are classified in this category when the sentence is within both the guideline range and within the statutory minimum and maximum. The sentence must meet minimum zone requirements as well. In rare instances when a very small departure or variance is granted, but the sentence is still within the original guideline range, the sentence is reported as within range.

Year

Information on *Year* is obtained from the Judgment and Commitment Order. Unless otherwise indicated, the sentencing year is defined as the fiscal year in which the individual was sentenced.
